#### PART I - BUSINESS

#### Item 1. Business

#### Form and Date of Organization

The Club was organized as a stock, non-profit corporation and was duly registered with the Securities and Exchange Commission (SEC) on July 9, 2014. The Club has no predecessors. As of December 31, 2021, the Club has no subsidiaries. The Club started its commercial operations last March 28, 2019 and has its official Grand Launch on July 31, 2019.

The Club is not involved in any bankruptcy, receivership or similar proceedings. Neither is the Club involved in any material reclassification, merger consolidation or purchase or sale of significant amount of assets not in the ordinary course of business.

#### Description of Business

#### Services to be offered

The Club was incorporated for the purpose of maintaining, operating, managing and carrying on the business of a sports and leisure club and its facilities in the Municipality of Porac, Province of Pampanga for the amusement, entertainment, recreational and athletic activities, on a non-profit basis, of its members.

#### Sales Mix

Revenues will be derived from monthly dues, use of sports facilities, sales of food and beverages, and other revenue-generating activities related to the operations of the Club. However, since it will be operated on a non-profit basis, no part of its net income shall inure to the benefit of any shareholder. Assessments, fees and dues collected from its shareholders shall be for the sole purpose of meeting the operational and maintenance expenses of the Club.

#### Plan of Distribution

To undertake the distribution of its shares to the public, Nuevocentro, Inc. (NCI), the Parent Company, has engaged the services of GG&A Club Shares Brokers, Inc. ("GG&A"), an accredited broker of the SEC, as its selling agent to promote, market, and sell the shares at such prices specified by NCI given yearly increases until the maximum of such prices, and on the standard terms and conditions of quotation or sale specified by NCI. The brokers shall also ensure completion of necessary reservation and booking documents of all buyers, including all forms required by the SEC. There is no relationship between the Issuer-registrant and GG&A.

#### Status of Property Development

As of December 31, 2021, Makati Development Corporation is 100% complete for the property development of the Club.

On July 31, 2019 the Club has its official Grand Launch and started to use the property for its normal operation.

#### Competition

The leisure market has proven to be of interest among numerous land development companies due to the extensive promotion of the industry, escalation of the market segment seeking vacation destinations, and increase in interest in the natural environment and tourism. Several clubs are considered competitors since they are well-known throughout the industry.

Belle Corporation's Tagaytay Highlands International Golf Club offers an array of various experiences for the entire family. The club complements the vacation residential development already set-up along the sprawling hills of Tagaytay. Individual shares are priced at *P*650,000 and the corresponding monthly dues are *P*5,000. The primary attraction of the club is the golf course.

Timberland Sports and Nature Club by Filinvest Development Corporation is another development that is located in mountains and nature setting. The club offers nature treks and various sports with modern facilities. Membership in such club costs ₽560,000 and the monthly dues are ₽2,500. In addition, membership can only be acquired by referrals and invitations.

Pico de Loro Beach and Country Club is a project of SM Investments Corporation which tries to provide a tropical destination that is also eco-friendly. The club envisions the promotion of eco-tourism in the Philippines. Shares of the club are currently priced at P450,000 and the monthly dues are P3,900.

Punta Fuego is a LandCo Pacific Corporation development that provides an exclusive resort that takes advantage of its strategic location by the sea. It has a number of sports and relaxation facilities that provide services for its members. Club Punta Fuego shares are priced at P1,000,000 and the monthly dues amount to P3,600.

The abovementioned developers are just a few of the competitors across the Philippines, but two major competitors that must be considered because of their proximity to the project are the Subic Bay Yacht Club and Club Morocco.

Subic Bay Yacht Club ("SBYC") is a membership club that offers berthing facilities for different types of seagoing vessels. It frequently hosts events such as regattas and other boat races. It has a clubhouse with dining facilities. SBYC was launched in April 1997 with an offering of 3,000 shares. Market data provides that as of 2004, 1,600 shares have been sold at the selling price of ₱120,000.00 per share and a transfer fee of ₱250,000.00, or a total cost of ₱370,000.00. Their current selling price per share is at ₱250,000.00. The membership club promotes its innovative design that creates the perfect ambience targeting the upper market. The segment targeted by the club includes primarily watersportsmen and businessmen with their families.

Club Morocco is a development by Sta. Lucia Realty and Development Corporation that offers residential lots in a beach resort setting. It has water views and offers activities such as swimming, sailing and fishing. It has a hotel with 24-twin sharing rooms, 4 suites, coffee shops, restaurants, a gym, boutiques, a lake-type pool and game rooms.

The Club intends to set itself apart from the foregoing clubs and other leisure clubs in the country by providing a unique interactive experience for its members in the context of a natural setting by making accessible in-nature facilities to be separately developed by NCI. It will also offer a wide variety of nature-based activities that the other clubs do not make available. The competitive advantage of the Club is also in its setting that provides a dramatic landscape of foothills, forest and the sea. The expertise and track record of NCI, through Ayala Land Inc. (ALI), in the field of real estate development further guarantees a high-quality development the value of which will appreciate over time.

#### Key suppliers

The Club energy and power is being provided primarily by Pampanga Electric Cooperative ("PELCO") which will also provide primary power to the entire Alviera development. The Club engage Manila Water Philippines Ventures Inc. as provider for water supply. The Club main provider of manpower is Asiapro Multi-Purpose Cooperative while for security guards is Jarton Security Agency Inc. The Club engaged to various suppliers in Metro Manila and Pampanga for food and beverage.

#### Customer base

The Club will rely heavily on a solid membership base and frequent usage. Continuous sales of the shares supported by promotion will be primary initiatives.

The business of the Club is not dependent upon a single customer or a few customers, the loss of any or more of which would not have a material adverse effect on the Club. As to date, there is no customer that will account for twenty percent (20%) of the Club's revenues.

#### Related Party Transactions

The Club has engaged MDC as the Club's general contractor and contracted Ayalaland Club Management, Inc (ACMI) up to July 2019 as the operations manager. Manila Water Philippines Ventures Inc., which provides water supply to the Club, and the aforementioned companies are affiliates of the Ayala Land, Inc. (ALI), the Club's Ultimate Parent Company.

Intercompany transactions with NCI may include noninterest bearing advances to fulfill the Club's operational financing requirements.

#### Intangible Assets

The Club has no patents, trademarks, copyrights, franchises or royalty agreements.

#### Legal and Regulatory Matters

As of the date of this report, the Club is not a party to any litigation which would have any material or adverse effect upon its business or financial condition. The Gross Parcel owned by the Club is not the subject of any legal proceedings.

On August 23, 2014, the Department of Environment and Natural Resources ("DENR") issued the Environmental Compliance Certificate ("ECC") for the Alviera development where the project is located. Among the conditions under which the ECC was granted is the establishment of the following:

- A Multipartite Monitoring Team ("MMT") composed of local government units concerned, NGO/PO, DENR Region 3, Environmental Management Bureau Region 3, and the project proponent. There is already an existing Multipartite Monitoring Team for Alviera that can take on this task.
- 2. A continuing Information, Education, and Communication ("IEC") Program to explain publicly its Environmental Impact Statement ("EIS").

The foregoing conditions are intended to ensure that the development and operation of Alviera and the Club do not violate existing environmental laws.

A development permit which covers the entire Alviera development has also been obtained. The development permit was approved and issued by the office of the Municipal Mayor. The Barangay resolution was approved on June 10, 2014.

The Gross Parcel is part of a parcel of land covered by an Exclusion/Exemption Order issued by the Department of Agrarian Reform ("DAR") and Memorandum dated May 28, 1998 and June 4, 2003, respectively, which excluded and exempted the said parcel of land from the coverage of the Comprehensive Agrarian Reform Program.

NCI does not foresee any existing or probable government regulation which may in any way hinder the development and operation of the Club.

## Amount Spent on Development Activities

The amount spent as of December 31, 2021 for development activities totaled #816.29 million. No additions were made subsequent to the completion of construction in 2019.

#### Human Resource

As of December 31, 2021, the Club employed 13 full-time employees and 75 contractual workers. Consultants may also be hired for concerns that require expertise. Employment base is expected to increase once members' patronage of the Club increases, requiring more manpower resource, and/or once the need arises.

## Risk Factors and Risk Management Strategies

#### Real Estate Appreciation/Depreciation

The investment in the shares of the Club is an indirect investment in real property such that the usual risks associated with property ownership should be considered. These include natural calamities, adverse changes in political and economic conditions, environmental laws or applicable Philippine regulations, which may affect property values and could result in real estate appreciation or depreciation in the future.

#### Market Valuation

While the shares are transferrable after five (5) years from the date of commencement of commercial operations of the Club, it is not anticipated that an organized trading market for the purchase and sale of such shares will develop in the near future. Prospective buyers who intend to invest purely for potential capital gains should consider that the shares are not publicly traded and market valuation may not be readily available.

#### Economic and Political Factors

The depreciation of the Philippine Peso will directly affect the estimated construction and development costs for the project, which includes the costs of imported construction materials and service fees of foreign consultants. Any escalation in development costs for the Club may affect the price at which the shares will be offered for sale after the initial offer. Any political or economic instability in the future may have a negative effect on the price.

In the event that the shares are not sold within the projected timetable because of economic and political factors that may decrease the selling price of the shares, NCI will continue to provide financial support or cause the Club to loan from third parties such amounts as may be necessary to support the Club's operations.

#### Competitive Business Condition

The Club is expected to encounter competition from existing sports, golf and country clubs which are located in Central Luzon and in other regions. The competition with these clubs is expected to be based on operating history, secondary price of available shares, amenities and facilities, and location and accessibility.

The Club has suitably differentiated itself from the competition through its unique offerings. No other leisure development in the area, whether existing or currently being developed, offers proprietary shares in a club with both sports and country club facilities situated in a mixed-use township development amidst mountain nature setting. The Club's design, surroundings and available nature-based activities will set it apart from competition.

#### Mitigation Plan for the Above Risks

NCI shall implement measures to ensure that investors' investments in the shares shall be protected even during downturns and changes in business condition.

To ensure that the marketability of the shares, NCI has been promoting the Club not as a stand-alone development but as part of the mixed-use township development project, Alviera. The Club is also being aggressively marketed together with the selling of residential lots and houses, as well as commercial and industrial lots, in Alviera. NCI is also using ALI's wide network of internal and external sales force to market the Club. As the residents, investors and locators reside in Alviera, it is expected that the demand for the shares will continuously increase alongside the development and completion of each of Alviera's communities, resulting in the appreciation of the value of the shares.

To ensure that quality of the Club remains up to standards, the Club employed 13 full-time employees to oversee and manage the Club operations. NCI remains the majority shareholder of the Club.

#### Item 2. Properties

#### **Description and Location of the Site**

The Club will form part of Alviera, the new master planned development by ALI, consisting of approximately 1,800 hectares (as of date of this report), located in Porac, Pampanga. Alviera will house BPO buildings, retail centers, universities, a technology and business park, a country club, recreational amenities and a full range of residential options.

The site of the Club is approximately a 56,241-square meter property bounded by the Alviera town center in the north, overlooking the Porac ridges in the south, and Subic-Clark Toll Expressway in the west.

#### PART III - FINANCIAL INFORMATION

## Item 6. Management's Discussion and Analysis and Plan of Operation

#### Plan of Operation

The Club started its commercial operations last March 28, 2019 and has its official Grand Launch last July 31, 2019 and started to operate under its normal operation. Members started to pay their monthly dues after the Grand Launch as they can already use the club facilities and amenities. Any increase in dues will be reported to the SEC within thirty (30) days from the approval of the Board of Directors. The Members will be notified of such increase. Notices on the dues will also be posted on bulletin boards located in conspicuous areas for the benefits of secondary markets.

Revenues are derived from monthly dues, sale of food and beverages, and from usage of sports facilities and equipment. Since the Club operated on a non-profit basis, no part of its net income will inure to the benefit of its shareholders. Assessments, fees and dues collected from Members shall be for the sole purposes of meeting the operational and maintenance expenses of the Club.

Funding for operating requirements will be generated from the Club's revenue streams and from advances from NCI, when necessary. Future funding requirements are expected to be heavily sourced through revenue generation.

The Club currently has no plans of conducting any product research and development. It also does not expect to purchase or sell any plant and significant equipment.

As discussed in Part I under Human Resource, the Club already employed full-time employees and contractual workers as of date and will expect to increase manpower when the need arises.

## Management's Discussion and Analysis

#### **Financial Condition**

Current assets of the Club amounted to ₱17.50 million and ₱15.30 million as of December 31, 2021 and 2020, respectively, resulting to a current ratio of 0.16:1 and 0.18:1. NCI will provide the necessary operating financial support to the Club when necessary. Future operating requirements of the Club are expected to be sourced from revenue generating activities.

In 2021 and 2020, the Club received advances from NCI amounting to ₱ 14.00 million and ₱30.10 million, respectively.

The Club has not availed of any long-term debt financing from its related parties or external sources. Accordingly, the Club has no existing contingencies, material commitments for capital expenditures, guarantees and other off-balance sheet transactions as of December 31, 2021.

In a move to contain the COVID-19 outbreak, on March 8, 2021, Local Government Unit impose stricter Health Protocol and subsequent temporary closure of the establishment not belong to the necessary industries. It then extends until March 31, 2021. Due to the proclamation of the IATF that Metro Manila and the Bubble areas will be place under the Modified Enhanced Community Quarantine, the Local Government Unit followed thru by extending the stricter health protocol until April 15, 2021.

The outbreak could have a material impact on its 2021 financial results and even periods thereafter. Considering the evolving nature of this outbreak, the Club cannot determine at this time the impact to its financial position, performance and cash flows. The Club will continue to monitor the situation.

## PART V - CORPORATE GOVERNANCE

# Item 13. Compliance with Leading Practice on Corporate Governance

The machinery for corporate governance of the Club is principally contained in the Articles of Incorporation and By-Laws and their amendments. These constitutive documents lay down, among others, the basic structure of governance, minimum qualifications of directors, and the principal duties of the Board of Directors and officers of the Corporation.

The Club has adopted a Manual of Corporate Governance substantially in the form attached hereto as part of the *Exhibits* in accordance with the Securities Regulation Code. The function of the Manual of Corporate Governance is to supplement and complement the Club's Articles of Incorporation and By-Laws by setting forth principles of good and transparent governance.

The Board of Directors, Management, officers and employees of the Club commit themselves to the principles and best practices of governance contained in the Manual of Corporate Governance as a guide in the attainment of its corporate goals. The Club shall make a continuing effort to create awareness of good corporate governance within the organization.

New initiatives are regularly pursued to develop and adopt corporate governance best practices and to build the right corporate culture across the organization.

There has been no significant deviation from the Club's Manual of Corporate Governance since 2020 amendment as follows:

The Manual was amended to conform with the Code of Corporate Governance for Public Companies and Registered Issuers issued by the SEC through SEC MC No. 24, series of 2019. The amendments were approved by the Board of Directors on 26 June 2020. The Amended Manual was signed by then Chairman Mr. Leonardo L. Leonio and was filed with the SEC on 10 July 2020. Subsequently, after filing, the SEC issued SEC MC No. 20, series of 2020 which required that the amended Manual be signed by both Chairman and Compliance Officer.

After the election of Mr. Bernard Vincent O. Dy as Chairman at the ASM, and Ms. Ma. Luisa D. Chiong as Compliance Officer at the Organizational Board, both held on 25 November 2020, their signatures were secured and the Amended Manual was refiled with the SEC with both their signatures on 18 December 2020.

# **INDEPENDENT AUDITOR'S REPORT**

The Board of Directors and Stockholders Alviera Country Club, Inc. Alviera Country Club, Brgy. Hacienda Dolores Porac, Pampanga

### **Report on the Audit of the Financial Statements**

# Opinion

We have audited the financial statements of Alviera Country Club, Inc. (the Club), which comprise the statements of financial position as at December 31, 2021 and 2020, and the statements of comprehensive loss, statements of changes in equity and statements of cash flows for each of the three years in the period ended December 31, 2021, and notes to financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Club as at December 31, 2021 and 2020, and its financial performance and its cash flows for each of the three years in the period ended December 31, 2021 in accordance with Philippine Financial Reporting Standards (PFRSs).

### **Basis for Opinion**

We conducted our audits in accordance with Philippine Standards on Auditing (PSAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Club in accordance with the Code of Ethics for Professional Accountants in the Philippines (Code of Ethics) together with the ethical requirements that are relevant to our audit of the financial statements in the Philippines, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### **Other information**

Management is responsible for the other information. The other information comprises the information included in the SEC Form 20-IS (Definitive Information Statement), SEC Form 17-A and Annual Report for the year ended December 31, 2021, but does not include the financial statements and our auditor's report thereon. The SEC Form 20-IS (Definitive Information Statement), SEC Form 17-A and Annual Report for the year ended December 31, 2021 are expected to be made available to us after the date of this auditor's report.

Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audits of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audits, or otherwise appears to be materially misstated.

# Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with PFRSs, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Club's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Club or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Club's financial reporting process.

### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with PSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with PSAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Club's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Club's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Club to cease to continue as a going concern.

• Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

# Report on the Supplementary Information Required Under Revenue Regulations No. 15-2010

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplementary information required under Revenue Regulations No. 15-2010 in Note 15 to the financial statements is presented for purposes of filing with the Bureau of Internal Revenue and is not a required part of the basic financial statements. Such information is the responsibility of the management of Alviera Country Club, Inc. The information has been subjected to the auditing procedures applied in our audit of the basic financial statements. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

# ALVIERA COUNTRY CLUB, INC. NOTES TO FINANCIAL STATEMENTS

#### 1. Corporate Information

Alviera Country Club, Inc. (the Club) was registered with the Securities and Exchange Commission (SEC) on July 9, 2014. It was established primarily to construct, maintain, manage and carry on the business of a sports and leisure club and its facilities in the Municipality of Porac, Pampanga, for the amusement, entertainment, recreational and athletic activities, on a non-profit basis, of its members. The Club is a subsidiary of Nuevocentro, Inc (NCI). NCI's parent is Ayala Land, Inc. (ALI). ALI's parent is Ayala Corporation (AC). AC is a publicly-listed Company. Both ALI and AC are incorporated in the Republic of the Philippines.

On July 17, 2014, the Board of Directors (BOD) approved the application for the registration and licensing with the SEC of the Club's 6,800 shares, consisting of 3,700 Class A no par value, 2,600 Class B no par value shares, 300 Class C no par value shares and 200 Class D no par value shares, to be offered to the public. The SEC issued the Certificate of Permit to Offer securities for Sale on May 6, 2015.

The Club is exempt from payment of income tax on income received from social, recreational, and athletic activities on a nonprofit basis provided that no part of the Club's income shall inure to the benefit of any of its members, trustees and officers. Under Section 30 (E) of the Tax Reform Act of 1997, an organization organized for recreational, sports and athletic activities shall be exempt from payment of income tax on income received from aforementioned activities.

On August 3, 2012, the Bureau of Internal Revenue (BIR) has issued Revenue Memorandum Circular (RMC) No. 35-2012 clarifying that clubs organized and operated exclusively for pleasure, recreation and other non-profit purposes are subject to income tax and value-added tax (VAT) on their income from whatever source, including but not limited to membership fees, assessment dues, rental income, and service fees.

On August 13, 2019, the Supreme Court (SC) declared that membership fees, assessment dues, and fees of similar nature collected by Clubs which are organized and operated exclusively for pleasure, recreation, and other nonprofit purposes do not constitute as: (a) "the income of recreational clubs from whatever source" that are "subject to income tax"; and (b) part of the "gross receipts of recreational clubs" that are "subject to VAT". Starting October 1, 2020, the Club no longer collected output VAT on membership fees and fees of similar nature.

The Club started its commercial operations last March 28, 2019 and had its official Grand Launch on July 31, 2019.

The Club's registered office address and principal place of business is at Alviera Country Club, Brgy. Hacienda Dolores, Porac, Pampanga.

The accompanying financial statements were authorized for issuance by the BOD on April 8, 2022.

#### Status of Operations

The Club incurred net losses amounting to P39,020,793 and P47,971,506 in 2021 and 2020, respectively, resulting in deficit amounting to P146,393,940 and P107,373,147 as of December 31, 2021 and 2020, respectively. Also, the Club's current liabilities exceeded its total current assets by P91,626,452 and P69,947,968 as of December 31, 2021 and 2020, respectively.

To address such deficiency, the Club is continuously implementing strategies to address the impact of the pandemic to the business and to help improve the operational results for the coming year, such as implementing hybrid/flexible working hours and bidding processes for all of purchases. Further, the Club's parent is committed to provide the necessary financial support for the Club's working capital requirements to meet its liabilities and other possible obligation and responsibilities in order for it to continue its business operations as a going concern.

Management has assessed that the Club is still able to maintain sufficient liquidity, to enable the Club to continue as a going concern for at least the next 12 months from the date of these financial statements.

# 2. Basis of Preparation

#### **Basis of Preparation**

The financial statements of the Club have been prepared using the historical cost basis and are presented in Philippine Peso ( $\mathbb{P}$ ), the Club's functional currency. All amounts are rounded to the nearest peso unless otherwise indicated.

#### Statement of Compliance

The financial statements of the Club have been prepared in compliance with Philippine Financial Reporting Standards (PFRSs).

#### Changes in Accounting Policies and Disclosures

The accounting policies adopted are consistent with those of the previous financial year, except for the adoption of new standards effective in 2021. Unless otherwise indicated, the adoption did not have any significant impact on the financial statements.

- Amendment to PFRS 16, COVID-19-related Rent Concessions beyond 30 June 2021
- Amendments to PFRS 9, PAS 39, PFRS 7, PFRS 4 and PFRS 16, Interest Rate Benchmark Reform Phase 2

### Standards Issued but not yet Effective

Pronouncements issued but not yet effective are listed below. Unless otherwise indicated, the Club does not expect that the future adoption of the said pronouncements will have a significant impact on its financial statements. The Club intends to adopt the following pronouncements when they become effective.

### Effective beginning on or after January 1, 2022

- Amendments to PFRS 3, Reference to the Conceptual Framework
- Amendments to PAS 16, Plant and Equipment: Proceeds before Intended Use
- Amendments to PAS 37, Onerous Contracts Costs of Fulfilling a Contract
- Annual Improvements to PFRSs 2018-2020 Cycle
  - Amendments to PFRS 1, *First-time Adoption of Philippines Financial Reporting Standards, Subsidiary as a first-time adopter*
  - Amendments to PFRS 9, *Financial Instruments*, *Fees in the '10 per cent' test for derecognition of financial liabilities*
  - o Amendments to PAS 41, Agriculture, Taxation in fair value measurements

### Effective beginning on or after January 1, 2023

- Amendments to PAS 1, Classification of Liabilities as Current or Non-current
- PFRS 17, Insurance Contracts

# Effective beginning on or after January 1, 2024

• Amendments to PFRS 10, Consolidated Financial Statements, and PAS 28, Sale or Contribution of Assets between an Investor and its Associate or Joint Venture

# Deferred effectivity

• Amendments to PFRS 10, Consolidated Financial Statements, and PAS 28, Sale or Contribution of Assets between an Investor and its Associate or Joint Venture

### Summary of Significant Accounting Policies

The significant accounting policies that have been used in the preparation of the financial statements are summarized below. These policies have been consistently applied to all the years presented, unless otherwise stated.

### Current versus Noncurrent Classification

The Club presents assets and liabilities in the statement of financial position based on a current and noncurrent classification.

An asset is current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realized within twelve months after the reporting period; or,
- Cash or cash equivalent, unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as noncurrent.

A liability is current when:

- It is expected to be settled in normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period; or,
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as noncurrent.

Deferred tax assets and liabilities are classified as noncurrent assets and liabilities.

### Cash

Cash includes cash on hand and in banks. Cash on hand are funds readily available into cash. Cash in banks is stated at face amount and earns interest at the prevailing bank deposit rates.

#### Fair Value Measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible to the Club.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Club uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Club determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Club has determined classes of assets on the basis of the nature, characteristics and risks of the asset and the level of the fair value hierarchy as explained above.

#### Cash in bank

Cash in bank is stated at face amount and earns interest at the prevailing bank deposit rate.

#### **Financial Instruments**

#### Date of recognition

The Club recognizes a financial asset or a financial liability in the statement of financial position when it becomes a party to the contractual provisions of the instrument. Purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace are recognized on the settlement date.

# Financial Assets

#### Initial recognition and measurement

Financial assets are classified, at initial recognition, as subsequently measured at amortized cost, fair value through other comprehensive income (OCI), and fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Club's business model for managing them. The Club initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. Financial assets that do not contain a significant financing component or for which the Club has applied the practical expedient are measured at the transaction price determined under PFRS 15.

In order for a financial asset to be classified and measured at amortized cost or fair value through OCI, it needs to give rise to cash flows that are 'solely payments of principal and interest (SPPI)' on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level. Financial assets with cash flows that are not SPPI are classified and measured at FVPL, irrespective of the business model.

The Club's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both. Financial assets classified and measured at amortized cost are held within a business model with the objective to hold financial assets in order to collect contractual cash flows while financial assets classified and measured at FVOCI are held within a business model with the objective of both holding to collect contractual cash flows and selling.

#### Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- Financial assets at amortized cost (debt instruments)
- Financial assets at fair value through OCI with recycling of cumulative gains and losses (debt instruments)
- Financial assets designated at fair value through OCI with no recycling of cumulative gains and losses upon derecognition (equity instruments)
- Financial assets at fair value through profit or loss

As of December 31, 2021, and 2020, the Club's financial assets pertain to financial assets at amortized cost (debt instruments).

#### Financial assets at amortized cost (debt instruments)

Financial assets at amortized cost are subsequently measured using the effective interest (EIR) method and are subject to impairment. Gains and losses are recognized in profit or loss when the asset is derecognized, modified or impaired.

The Club's financial assets at amortized cost includes "Cash in bank" and "Accounts and other receivables".

#### Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognized (i.e., removed from the statements of financial position) when:

- The rights to receive cash flows from the asset have expired, or,
- The Club has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Club has transferred substantially all the risks and rewards of the asset, or (b) the Club has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Club has transferred its rights to receive cash flows from an asset or has entered into a passthrough arrangement, it evaluates if, and to what extent, it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Club continues to recognize the transferred asset to the extent of its continuing involvement. In that case, the Club also recognized an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Club has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Club could be required to repay.

#### Impairment of financial assets

The Club recognizes an allowance for expected credit losses (ECLs) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Club expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECLs are recognized in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12 months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

The Club determines whether to apply the general approach or the simplified approach when calculating the provision for ECL. Under the general approach, at each reporting date, the Club recognizes a loss allowance based on either 12-month ECLs or Lifetime ECLs, depending on whether there has been a significant increase in credit risk on the financial instrument since initial recognition. Under the simplified approach, the changes in credit risk are not tracked and loss allowances are measured at amounts equal to lifetime ECL.

For cash in bank, the Club applies the low credit risk simplification. The probability of default and loss given defaults are publicly available and are considered to be low credit risk investments. It is the Club's policy to measure ECLs on such instruments on a 12-month basis. However, when there has been a significant increase in credit risk since origination, the allowance will be based on the lifetime ECL.

For other financial assets such as accounts and other receivables, ECLs are recognized in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

#### Determining the stage for impairment

At each reporting date, the Club assesses whether there has been a significant increase in credit risk for financial assets since initial recognition by comparing the risk of default occurring over the expected life between the reporting date and the date of initial recognition. The Club considers reasonable and supportable information that is relevant and available without undue cost or effort for this purpose. This includes quantitative and qualitative information and forward-looking analysis.

An exposure will migrate through the ECL stages as asset quality deteriorates. If, in a subsequent period, asset quality improves and also reverses any previously assessed significant increase in credit risk since origination, then the loss allowance measurement reverts from lifetime ECL to 12-months ECL.

#### Financial liabilities

#### Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Club's financial liabilities include Accounts and other payables, except government payables, contract liabilities and payables to related parties and other obligations that meet the above definition (other than liabilities covered by other accounting standards, such as income tax payable).

#### Subsequent measurement

For purposes of subsequent measurement, financial liabilities are classified in two categories:

- Financial liabilities at FVPL
- Financial liabilities at amortized cost (loans and borrowings)

#### Financial liabilities at amortized cost (loans and borrowings)

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the EIR amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statements of comprehensive income.

#### Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in statements of comprehensive income.

#### *Offsetting of financial instruments*

Financial assets and financial liabilities are offset and the net amount is reported in the statements of financial position if there is a currently enforceable legal right to set off the recognized amounts and there is an intention to settle on a net basis, to realize the asset and settle the liability simultaneously. The Club assesses that it has a currently enforceable right of offset if the right is not contingent on a future event and is legally enforceable in the normal course of business, event of default, and event of insolvency or bankruptcy of the Club and all of the counterparties.

#### Inventories

Inventories consist of food and beverage. Inventories are valued at the lower of cost and net realizable value (NRV). Cost is determined using weighted average method. NRV of food and beverage is the estimated selling price in the ordinary course of business less the estimated cost necessary to make the sale. In determining NRV, the Club consider any adjustment necessary for spoilage, breakage and obsolescence.

#### Value-added Tax (VAT)

Revenue, expenses and assets are recognized, net of the amount of VAT, if applicable.

When VAT from sales of goods and/or services (output VAT) exceeds VAT passed on from purchases of goods or services (input VAT), the excess is recognized as payable in the statement of financial position. When VAT passed on from purchases of goods or services (input VAT) exceeds VAT from sales of goods and/or services (output VAT), the excess is recognized as an asset in the statement of financial position to the extent of the recoverable amount.

#### Advances to Contractors

Advances to contractors pertain to the down payments paid by the Club to its contractors. These are carried at cost less impairment, if any, and are recouped upon every progress billing payment depending on the percentage of accomplishment.

#### Land

Land consists of properties for future development and is carried at cost less any impairment in value. The initial cost of land comprises its purchase price and any directly attributable costs of bringing the land to the condition necessary for its intended use.

#### Property and Equipment

Property and equipment, except land, are stated at cost net of accumulated depreciation, amortization and accumulated impairment losses, if any. Land held for use in operations is carried at cost less any impairment losses.

The initial cost of property and equipment consists of its purchase price including import duties and any directly attributable costs of bringing the property and equipment to its working condition and location for its intended use. Cost also includes the cost of replacing part of such property and equipment when the recognition criteria are met.

Expenditures incurred after the property and equipment have been put into operations, such as repairs and maintenance are recognized in profit or loss in the year the costs are incurred. In situations where it can be clearly demonstrated that the expenditures have resulted in an increase in future economic benefits expected to be obtained from the use of an item of property and equipment beyond its originally assessed standard of performance, the expenditures are capitalized as additional costs of property and equipment.

Depreciation are computed on a straight-line basis over the estimated useful lives of the property and equipment. The estimated useful lives of the property and equipment are as follows:

Asset Type	Number of Years
Building	40
Facilities, furniture, fixtures and equipment	3 to 5
Transportation equipment	3 to 5

The Club determines depreciation for each significant part of an item of property and equipment.

The estimated useful lives and method of depreciation are reviewed and adjusted, if appropriate, at each financial year end to ensure that the years and method of depreciation and amortization are consistent with the expected pattern of economic benefits from items of property and equipment.

An item of property and equipment is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the year the asset is derecognized.

Fully depreciated property and equipment are retained in the books until these are no longer in use.

#### Impairment of Nonfinancial Assets

Advances and other noncurrent assets

The Club provides allowance for impairment losses on advances and other noncurrent assets when they can no longer be realized. The amounts and timing of recorded expenses for any period would differ if the Club made different judgments or utilized different estimates. An increase in allowance for impairment losses would increase recorded expenses and decrease advances and other noncurrent assets.

Recovery of impairment losses recognized in prior year is recorded when there is an indication that the impairment losses recognized for the asset no longer exist or has decreased. The recovery is recorded in the statement of income. However, the increase in carrying amount of an asset due to recovery of an impairment loss is recognized to the extent it does not exceed the carrying amount that would have been determined had there been no impairment loss recognized for that asset in prior year.

#### Property and equipment

The Club assesses at each reporting date whether there is an indication that property and equipment may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Club estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash generating unit's (CGU) fair value less costs of disposal and its value-in-use. It is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value-in-use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Impairment losses of continuing operations are recognized in profit or loss in those expense categories consistent with the function of the impaired asset.

An assessment is made at each reporting date to determine whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the recoverable amount is estimated. A previously recognized impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the statement of profit or loss unless the asset is carried at revalued amount, in which case, the reversal is treated as a revaluation increase.

#### Equity

# Paid-in Capital

Paid-in Capital is measured at par value for all shares issued. When the Club issues more than one class of stock, a separate account is maintained for each class of stock and the number of shares issued.

When the shares are sold at premium, the difference between the proceeds and stated value is credited to "Additional paid-in capital" account. Direct costs incurred related to the issuance of new shares are chargeable to equity account, net of related tax benefits.

#### Deficit

Deficit represents accumulated losses of the Club. A deficit is not an asset but a deduction from equity.

#### **Revenue Recognition**

The Club's revenue from contracts with customers primarily consist of membership dues, service income and sale of goods. Revenue from contracts with customers is recognized when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Club expects to be entitled in exchange for those goods or services. The Club has generally concluded that it is the principal in its revenue arrangements.

The following are the Club's performance obligations:

#### Membership dues

Revenue from membership dues is recognized over the time the members are provided access to the Club's room accommodation, golf course, sports complex, game rooms, restaurants and other amenities. Transaction price is determined to be the BOD-approved rate for monthly membership dues. Each monthly membership dues are considered as a single performance obligation, therefore it is not necessary to allocate the transaction price. Any advance payments are recorded under "Contract liabilities" account in the statements of financial position.

#### Service income

Service income includes revenue from providing room accommodation, guest fees and income from the use of the Club's facilities and amenities such as golf course, sports complex, game rooms and other Club amenities. Revenue is recognized over the time the services are rendered and/or facilities and amenities are used.

#### Sale of goods

Revenue from sale of food and beverages and merchandise are recognized when control of the goods is transferred to the customers, generally when goods are delivered to and accepted by the customers.

*Interest income* Interest income is recognized as it accrues using the effective interest method.

*Other income* Other income is recognized when incurred.

#### Contract balances

#### Trade receivables

A receivable is recognized if an amount of consideration that is unconditional is due from the customer (i.e., only the passage of time is required before payment of the consideration is due).

#### Contract liabilities

A contract liability is recognized if a payment is received or payment is due (whichever is earlier) from a customer before the Club transfers the related goods or services. Contract liabilities are recognized as revenue when the Club performs under the contract. Membership dues and consumables collected in advance are recognized as contract liabilities in the statements of financial position.

#### **Expense Recognition**

Expense is recognized when decrease in future economic benefits related to a decrease in an asset or an increase in a liability has arisen that can be measured reliably.

#### Income Tax

#### *Current tax*

Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the tax authority. The tax rates and tax laws used to compute the amount are those enacted or substantively enacted as at the end of the reporting period.

#### Deferred tax

Deferred tax is provided using the liability method on all temporary differences, with certain exceptions, at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognized for all taxable temporary differences, with certain exceptions. Deferred tax assets are recognized for all deductible temporary differences and carryforward benefits of unused net operating loss carryover (NOLCO) and minimum corporate income tax (MCIT), to the extent that it is probable that taxable income will be available against which the deductible temporary differences and unused NOLCO can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable income will be available to allow all or part of the deferred tax assets to be utilized. Any unrecognized deferred tax assets are reassessed at each reporting date and are recognized to the extent that it has become probable that future taxable income will allow all or part of the deferred tax assets to be recovered.

Deferred tax assets and liabilities are measured at the tax rate that is expected to apply to the period when the asset is realized, or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at the reporting date.

Deferred tax assets and liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred income taxes relate to the same taxable entity and the same taxation authority.

#### Uncertainty over income tax treatments

The Club assesses at the end of each reporting period whether it has any uncertain tax treatments by reviewing the assumptions about the examination of tax treatments by the taxation authority, determining taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates, and considering changes in relevant facts and circumstances. The Club then evaluates how likely is it that a certain tax treatment will be accepted by the taxation authority. If it is probable that the taxation authority will accept a certain tax treatment, the Club concludes that it has no uncertain tax treatment and will measure tax amounts in line with the income tax filings. If it is not probable that the taxation authority will accept a certain tax treatment, the Club measures tax amounts based on the 'most likely amount' method (better predicts uncertainty if the possible outcomes are binary or are concentrated on one value) or 'expected value' method (better predicts uncertainty if there is a range of possible outcomes that are neither binary nor concentrated on one value). The Club presents uncertain tax liabilities or deferred tax liabilities.

#### Provisions

Provisions are recognized when the Club has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Club expects some or all of a provision to be reimbursed, the reimbursement is recognized as a separate asset but only when the reimbursement is virtually certain. Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate.

#### Contingencies

Contingent liabilities are not recognized in the financial statements. These are disclosed unless the possibility of an outflow of resources embodying economic benefits is remote. Contingent assets are not recognized in the financial statements but disclosed when an inflow of economic benefits is probable.

#### Events After the Reporting Period

Post year-end events up to the date when the financial statements are authorized for issue that provide additional information about the Club's position at the reporting date (adjusting events) are reflected in the financial statements. Post year-end events that are non-adjusting events are disclosed in the financial statements when material.

#### 3. Significant Accounting Judgements and Estimates

The preparation of the financial statements in compliance with PFRS requires the Club to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. The estimates and assumptions used are based on management's evaluation of relevant facts and circumstances as of the date of the financial statements. Future events may occur which will cause the assumptions used in arriving at the estimates to change. The effects of any change in estimates are reflected in the financial statements as they become reasonably determinable.

#### Estimates and Assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date that have significant risk of causing a material adjustment to the carrying amounts of assets and liabilities are discussed below.

#### Going concern assessment

The use of the going concern assumption involves management making judgments, at a particular point in time, about the future outcome of events or conditions that are inherently uncertain. The underlying assumption in the preparation of financial statements is that the Club has neither the intention nor the need to liquidate. Management takes into account a whole range of factors which include, but not limited to, Parent Company's ability to provide financial support, expected operations and profitability and potential sources of additional financing. Management prepares the financial statements on a going concern basis as management has future plans regarding the Club, as discussed in Note 1.

### Estimating allowance for expected credit losses (ECL) of receivables

For the Club's trade receivables, receivables from related parties and deposits, evaluation includes the review of the credit risk of the borrower through a review of qualitative and quantitative information. Factors being considered includes significant changes in the business, financial and economic conditions, regulatory and economic environment to which the borrower operates, among others.

No expected credit loss was recognized in 2021 and 2020.

### Estimating net realizable value (NRV) of inventories

Inventories are presented at the lower of cost or NRV. Estimation of NRV is based on the most reliable evidence available at the time the estimates are made of the amount the inventories are expected to be realized. A review of the items of inventories is performed at the end of each reporting period to reflect the accurate valuation of inventories in the financial statements.

The carrying values of inventories amounted to ₱889,739 and ₱1,648,675 as at December 31, 2021 and 2020, respectively. No provision, allowance and write-off for inventory obsolescence was recognized in 2021 and 2020 (see Note 6).

### Assessing recoverability of input VAT

The Club assesses on a regular basis if there is an objective evidence of impairment of input VAT. The amount of impairment loss is measured as the difference between the carrying amount and the estimated recoverable amount. The recognition of impairment requires the Club to assess how it could claim its accumulated input VAT.

The Club has accumulated excess input VAT since its establishment in 2014. Management has the remedy to claim these accumulated input VAT through addition of new revenue streams.

The carrying values of input VAT amounted to P111,936,822 and P110,424,931 as at December 31, 2021 and 2020, respectively. Allowance for impairment losses on input VAT amounted to nil as at December 31, 2021 and 2020.

#### Evaluating asset impairment

The Club reviews property and equipment, and other nonfinancial current and noncurrent asset for impairment in value. This includes considering certain indications of impairment such as significant changes in asset usage, significant decline in assets' market value, obsolescence or physical damage of an asset, significant underperformance relative to expected historical or projected future operating results and significant negative industry or economic trends, taking into consideration the impact of coronavirus pandemic.

Internal and external sources of information are reviewed at each statement of financial position date to identify indications that the Club's nonfinancial asset may be impaired, or an impairment loss previously recognized no longer exists or may be decreased. If any such indication exists, the recoverable amount of the nonfinancial asset is estimated.

As described in the accounting policy, the Club estimates the recoverable amount as the higher of the fair value less cost of disposal and value-in-use. In determining the present value of estimated future cash flows expected to be generated from the continued use of the assets, the Club is required to make estimates and assumptions that may affect other current and noncurrent assets, and property and equipment. An impairment loss would be recognized whenever evidence exists that the carrying value is not recoverable. For purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows.

No impairment losses were recognized for the Club's nonfinancial assets. As at December 31, 2021 and 2020, the carrying values of the nonfinancial assets follow:

	2021	2020
Property and equipment (Note 7)	₽795,691,410	₽815,644,403
Creditable withholding taxes	21,756	17,424

#### Recognizing deferred tax assets

The Club reviews the carrying amounts of deferred taxes at the end of the reporting period and reduces deferred tax assets to the extent that it is no longer probable that sufficient taxable income will be available to allow all or part of the deferred tax assets to be utilized. However, there is no assurance that the Club will generate sufficient taxable profits to allow all or part of the deferred tax assets to be utilized. The Club looks at its projected performance in assessing the sufficiency of future taxable income. The Club did not recognized deferred tax assets on temporary differences, NOLCO and MCIT totaling ₱137,307,745 and ₱90,016,880 as of December 31, 2021 and 2020, respectively. Further details on deferred tax assets are provided in Note 10.

### 4. Cash

This account consists of:

	2021	2020
Cash in bank	₽7,610,125	₽6,088,795
Petty cash fund	50,000	50,000
	₽7,660,125	₽6,138,795

Cash in bank refers to savings account maintained by the Club with a local bank. Interest income earned from cash in bank amounted to P21,724, P17,220, and P276,812 in 2021, 2020, and 2019 respectively (see Note 11). Corresponding final tax in 2021, 2020 and 2019 amounted to P4,345, P3,444, and P55,362, respectively.

#### 5. Accounts and Other Receivables

This account consists of:

	2021	2020
Trade receivables	₽5,430,558	₽4,407,645
Due from related parties (Note 11)	2,644,029	2,810,487
Receivable from employees	818,824	273,760
	₽8,893,411	₽7,491,892

Trade receivables pertain mainly to sales generated by the Club's restaurant, and sports and recreation facilities. These are collectible and billed to member within one month from consumption and usage.

Receivable from related parties pertains to usage of the Club's facilities.

Receivable from employees represent advances for travel and other expenses arising in the ordinary course of business. These are non-interest bearing and are recoverable through expense liquidation within one month from grant date.

### 6. Inventories

Inventories amounting to P889,739 and P1,648,675 in 2021 and 2020, respectively, mainly consist of food and beverage. Inventories are stated at cost, which is lower than their net realizable value. Cost of food and beverages charged to operations amounted to P6,980,802, P6,353,819 and P2,669,383 in 2021, 2020 and 2019, respectively (see Note 12).

The Club's primary source of capital is its capital stock amounting to ₱956,745,130 as of December 31, 2021, 2020 and 2019.

The Club is not subject to any externally imposed capital requirement.

### 10. Income Tax

"Corporate Recovery and Tax Incentives for Enterprises Act" or "CREATE" Act

President Rodrigo Duterte signed into law on March 26, 2021 the CREATE Act to attract more investments and maintain fiscal prudence and stability in the Philippines. Republic Act 11534 or the CREATE Act introduces reforms to the corporate income tax and incentives systems. It takes effect 15 days after its complete publication in the Official Gazette or in a newspaper of general circulation or April 11, 2021.

Pursuant to the CREATE Act, the Club has adopted the following changes effective July 1, 2020:

- Regular corporate income tax (RCIT) rate is reduced from 30% to 25%
- MCIT rate reduced from 2% to 1% of gross income effective July 1, 2020 to June 30, 2023.

- 18 -

The provision for income tax consists of:

	2021	2020	2019
Current	₽-	₽2,766	₽67,483
Final	4,345	3,444	55,362
Provision for income tax	₽4,345	₽6,210	₽122,845

Provision for income tax pertains to MCIT and final tax on interest income from cash in bank (see Note 4).

The reconciliation between the statutory and the effective income tax rates follows:

	2021	2020	2019
Benefit from income tax			
computed at statutory income

subjected to final tax	(1,086)	(1,722)	(27,681)
Provision for income tax	₽4,345	₽6,210	₽122,845

The Club did not recognize deferred tax assets on the following:

	2021	2020
NOLCO	₽132,265,692	₽84,823,896
Accrued expenses	4,971,804	5,122,735
MCIT	70,249	70,249
	<b>₽137,307,745</b>	₽90,016,880

On September 30, 2020, the BIR issued Revenue Regulations No. 25-2020 implementing Section 4(bbbb) of "Bayanihan to Recover As One Act" which states that the NOLCO incurred for taxable years 2020 and 2021 can be carried over and claimed as a deduction from gross income for the next five consecutive taxable years immediately following the year of such loss.

As of December 31, 2021 the Club has incurred NOLCO before taxable year 2020 which can be claimed as deduction from the regular taxable income for the next three consecutive taxable years, as follows:

#### 11. Related Party Transactions

Enterprises and individuals that directly, or indirectly through one or more intermediaries, control or are controlled by, or under common control with the Club including holding companies, subsidiaries and fellow subsidiaries, are related parties of the Club. Associates and individuals owning, directly or indirectly, an interest in the voting power of the Club gives them significant influence over the enterprise, key management personnel, including directors and officers of the Club and close members of the family of these individuals, and companies associated with these individuals also constitute related parties. In considering each possible related entity relationship, attention is directed to the substance of the relationship and not merely the legal form.

#### Terms and Conditions of Transactions with Related Parties

In the ordinary course of business, the Club has transactions with related parties. There have been no guarantees provided or received for any related party receivables or payables. These accounts are due based on normal credit terms, non-interest bearing and are generally unsecured except for advances to contractors, which is subject to recoupment over the term of the construction.

Impairment assessment is undertaken each financial year through a review of the financial position of the related party and the market in which the related party operates. Except as otherwise indicated, the outstanding accounts with related parties shall be settled in cash. The transactions are made at terms and prices agreed upon by the parties.

The following table shows the related party transactions included in the financial statements:

### 13. Financial Assets and Financial Liabilities

#### Fair Value Information

The carrying values of the Club's cash, deposits, accounts and other receivables, and accounts and other payables approximate their fair values due to the short-term nature of transactions involving these financial instruments.

#### Fair Value Hierarchy

As of December 31, 2021, and 2020, the Club has no financial asset and liability carried at fair value.

#### Financial Risk Management Objectives and Policies

The Club's principal financial instruments comprise of cash, accounts and other receivables, receivables from related parties, deposits, accounts and other payables, and payable to related parties. The main purpose of the Club's financial instruments is to fund operational and capital expenditures.

The main risk arising from the use of the financial instruments are credit risk and liquidity risk. The management reviews and approves the policies for managing each of these risks and they are summarized as follows:

#### Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The investment of the Club's cash resources is managed so as to minimize risk while seeking to enhance yield. The Club's holding of cash in bank exposes the Club to credit risk of the counterparty if the counterparty is unwilling or unable to fulfill its obligations, and the Club consequently suffers financial loss. Credit risk management involves entering into financial instruments only with counterparties with acceptable credit standing.

Bank limits are established on the basis of liquidity, capital adequacy and financial stability. Given the high credit standing of its accredited counterparty banks, management does not expect any of these financial institutions to fail in meeting their obligations.

The maximum exposure to credit risk for the Club's financial assets as at December 31 are as follows:

	2021	2020
Cash in bank (Note 4)	₽7,610,125	₽6,088,795
Accounts and other receivables*	8,074,587	7,218,132
Deposits	1,269,785	1,269,785
	₽16,954,497	₽14,576,712

\*excluding receivables from employees

These financial assets are considered as high grade and are classified as neither past due nor impaired.

#### Liquidity risk

Liquidity risk is defined by the Club as the risk of losses arising from funding difficulties due to deterioration in market conditions and/or the financial position of the Club that make it difficult for the Club to raise the necessary funds or that forces the Club to raise funds at significantly higher interest rates than usual.

The Club manages liquidity risk by maintaining a balance between continuity of funding and flexibility. The Club maintains a level of cash deemed sufficient to finance its operations. As part of its liquidity risk management, the Club regularly evaluates its projected and actual cash flows.

The table below analyzes the Club's financial assets and liabilities as at December 31, 2021. The amounts disclosed in the table are the contractual undiscounted cash flows which are equal to their carrying balances, as the impact of discounting is not significant.

### **INDEPENDENT AUDITOR'S REPORT ON SUPPLEMENTARY SCHEDULES**

The Stockholders and Board of Directors Alviera Country Club, Inc. Alviera Country Club, Brgy. Hacienda Dolores Porac, Pampanga

We have audited in accordance with Philippine Standards on Auditing the financial statements of Alviera Country Club, Inc. (the Club) as at December 31, 2021 and 2020, and for each of the three years in the period ended December 31, 2021 included in this Form 17-A and have issued our report thereon dated April 8, 2022. Our audits were made for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplementary schedules required under Annex 68-J of the Revised Securities Regulation Code (SRC) Rule 68 are the responsibility of the Club's management. These schedules are presented for purposes of complying with the Revised Securities Regulation Code Rule 68 and are not part of the basic financial statements. These schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, fairly state, in all material respects, the information required to be set forth therein in relation to the basic financial statements taken as a whole.
