Number of Votes Entitled: One (1) vote per share

- (b) Record Date

All stockholders of record as of 06 February 2026 are entitled to receive notice of the annual stockholders’ meeting.

- (c) Manner of Voting

Section A (1) of the Seventh Article of the Corporation’s Articles of Incorporation states that upon the expiry of five (5)-year period from the date of incorporation of the Corporation, Class A Shares shall, for all intents and purposes, be deemed to be a holder of a regular Class A share, whereby the voting rights of the holders of the Class A shares shall be equal in all respects to the voting rights of all the other classes of shares of the Corporation and, provided further, that these rights shall at all times be exercised in accordance with the Corporation’s By-Laws.

Section 23 of the Revised Corporation Code states in part, “stockholders entitled to vote shall have the right to vote the number of shares of stock standing in their own names in the stock books of the corporation at the time fixed in the bylaws or where the bylaws are silent, at the time of the election. The said stockholder may: (a) vote such number of shares for as many persons as there are directors to be elected; (b) cumulate said shares and give one (1) candidate as many votes as the number of directors to be elected multiplied by the number of the shares owned; or (c) distribute them on the same principle among as many candidates as may be seen fit”.

All stockholders of record, regardless of the class of share held by a stockholder, shall have the right to vote in all matters requiring stockholders' approval, including the right to nominate and vote for the persons who shall serve as directors of the Corporation. However, only stockholders who are members in good standing shall have the right to be voted for as member of the Board of Directors of the Corporation.

Nominations for membership in the Board of Directors have been submitted to the Corporate Governance and Nomination Committee in accordance with the procedure for nomination under the Corporation's By-laws and Manual on Corporate Governance.

Holders of Class A, Class B, Class C and Class D shares as of 06 February 2026 shall thus vote in the following manner:

Article VI of the By-Laws, Section 6. Manner of Voting. Subject to the Seventh Article of the Articles of Incorporation and Article II, Section 2(c) of this By-laws, a shareholder shall be allowed to vote in person or by proxy at all meetings of shareholders. Proxies shall be executed in writing by the shareholder or his or its duly authorized attorney-in-fact and shall be submitted to the Corporate Secretary at least three (3) business days prior to the scheduled date of the meeting. Except in those cases where the law provides for a higher voting requirement, all corporate acts requiring approval of the shareholders under the Corporation Code of the Philippines shall be approved by a majority of the entire subscribed capital stock; *provided*, that for the first five (5) years from the date of incorporation of the Club, the approval of holders of at least a majority (or in the event that the law requires a higher percentage for the approval of certain acts, then such higher percentage) of the Founders' Shares shall be necessary for the approval of shareholders for their effectivity and validity.

NUEVOCENTRO, INC., a corporation duly incorporated and established under the laws of the Philippines with principal address at the 28st Floor, Tower One and Exchange Plaza, Ayala Triangle, Ayala Avenue, Makati City, and represented herein by its Attorneys-in-Fact, **Elaine Marie F. Alzona** and **Anna Rica Lourdes D. Balbido** (“**Assignor-Beneficiary**”)

RECITALS

- A. The Assignor-Beneficiary is the owner of **One (1) Common Share** (“**Subject Share**”) of **Alviera Country Club, Inc.**, a corporation duly organized and existing under the laws of the Republic of the Philippines (“**Corporation**”).
- B. The Assignor-Beneficiary wishes to assign to **Ms. Lisset L. Velasco** (the “**Assignee-Trustee**”) the legal title over the Subject Share which was previously assigned to **Mr. Oscar S. Reyes**, while the Assignor-Beneficiary shall retain the beneficial ownership over the said Subject Share.
- C. The Subject Share shall be held by the Assignee-Trustee in trust for the Assignor-Beneficiary or the Assignor-Beneficiary's successors or assigns.

NOW, THEREFORE, for and in consideration of the foregoing, the Assignor-Beneficiary acknowledge and confirm as follows:

1. The Assignor-Beneficiary hereby assigns, transfers and conveys to the Assignee-Trustee the legal title over the Subject Share;
2. The Assignee-Trustee shall only hold in trust for the benefit of the Assignor-Beneficiary and the Assignor-Beneficiary's successors and assigns the Subject Share and all additional shares and other securities of the Corporation from time to time received by reason of holding the Subject Share (“**Additional Shares**”) (the Subject Share and the Additional Shares shall hereinafter be referred to collectively as the “**Trust Shares**”);
3. The Assignee-Trustee shall duly account for and pay to the Assignor-Beneficiary all dividends and other moneys or rights paid or accruing by reason of the Assignee-Trustee holding the Trust Shares, or dispose of any such dividends, moneys or rights as the Assignor-Beneficiary shall direct or instruct the Assignee-Trustee from time to time;
4. The Assignee-Trustee shall be given the authority to exercise voting rights in respect of the Trust Shares and otherwise deal with the Trust Shares as the Assignor-Beneficiary shall request or instruct, or, failing such request or instruction, as the Assignee-Trustee shall deem to be to the best interest of the Assignor-Beneficiary;
5. The Assignor-Beneficiary hereby confirms the authority of the Assignee-Trustee to vote the Subject Share at any and all regular and special meetings of the shareholders of the Corporation and any adjournments thereof; and
6. The Assignee-Trustee shall not be allowed to sell, transfer, assign or pledge the Trust Shares or any interest therein, except that the Assignee-Trustee hereby irrevocably constitutes the Assignor-Beneficiary of the Assignor-Beneficiary's designee or representative as the

Deed of Conveyance and Assignment

Assignee-Trustee's Attorney-in- Fact, with power to assign, transfer and convey all subscription rights, title, and interest in and to the Trust Shares in favor of the Assignor-Beneficiary or any other person or persons designated by the Assignor-Beneficiary, whether for or without any valuable consideration therefor, and for that purpose, to make and execute all necessary acts of assignment thereof, hereby ratifying and confirming all that said attorney-in-fact of the Assignee-Trustee shall lawfully do by virtue hereof. At the request of the Assignor-Beneficiary, the Assignee-Trustee likewise agrees to do all things necessary or appropriate to complete the transfer of the recorded ownership of the Trust Shares to and in favor of the Assignor-Beneficiary or its designee. For this purpose, the Assignee- Trustee hereby authorizes the Corporate Secretary or Assistant Corporate Secretary of the Corporation to make the corresponding transfer in the corporate books of the Trust Shares from the Assignee-Trustee's name to that of the Assignor-Beneficiary or the Assignor-Beneficiary's designee at any time upon the latter's request.

Annex B
Financial Information
(with Management's Discussion and Analysis)

ANNEX B

FINANCIAL INFORMATION

PART 1

Overview

The Club was organized as a stock, non-profit corporation and was duly registered with the Securities and Exchange Commission (“SEC”) on 9 July 2014. The Club has no predecessors. To date, the Club has no subsidiaries. Commercial operations of the Club commenced on 28 March 2019.

The Club is not involved in any bankruptcy, receivership or similar proceedings. Neither is the Club involved in any material reclassification, merger consolidation or purchase or sale of significant amount of assets not in the ordinary course of business.

Item 1. Financial Statements

Please refer to the attached audited financial statements as of 31 December 2024 (see **Annex D**), and unaudited 30 September 2025 (see **Annex E**).

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Plan of Operation

The Club commenced its commercial operations on 28 March 2019 and had its official Grand Launch on 31 July 2019. Members are obliged to pay monthly dues, fees and assessments as determined by the Board of Directors. Any increase in dues will be reported to the SEC within thirty (30) days from the approval of the Board of Directors. The Members will be notified of such increase. Notices on the dues will also be posted on bulletin boards located in conspicuous areas for the benefit of secondary markets. Current monthly dues are discussed on Item 21 of E. Other Matters.

Revenues are mainly derived from monthly dues and fees, and from the sale of food and beverages. Since the Club operates on a non-profit basis, no part of its net income will inure to the benefit of its shareholders. Assessments, fees and dues collected from Members shall be for the sole purpose of meeting the operational and maintenance expenses of the Club.

Cash Requirement

While on its early operational stage, funding requirements of the Club will be sourced through revenue generating activities (dues and fees from members, food and beverage, banquet events and court rentals), and advances from NuevoCentro, Inc. (NCI), if deemed necessary.

Capital Expenditure

The Club's capital expenditures for the nine-month period ended 30 September 2025 pertains to purchase of equipment and major repairs amounting to ₱7.73 million.

Manpower Resource

As of 30 September 2025, the Club have 14 full-time employees and 88 contractual workers to handle the Club's operations.

Management's Discussion and Analysis

Financial Condition

The Club has not availed of any long-term debt financing from its related parties or external sources. Accordingly, the Club has no existing contingencies, material commitments for capital expenditures, guarantees and other off-balance sheet transactions as of the date of the report.

Pre-operating financial support was provided by NCI to the Club. Operating requirements of the Club will be sourced from revenue generating activities and advances from NCI, if deemed necessary.

There are no known trends, events, seasonal aspects or uncertainties which are reasonably expected to have a material impact on the Club's revenues, income and liquidity during its pre-operating stage. All items presented on profit or loss were incurred as part of the Club's operations. Losses from operations are expected to be incurred until the Club reaches its breakeven for commercial operations. Incurrence of loss is monitored regularly to ensure that it will not materially impact the Club's financial capacity.

Liquidity Risk

Liquidity risk is defined by the Club as the risk of losses arising from funding difficulties due to deterioration in market conditions and/or the financial position of the Club that make it difficult for the Club to raise the necessary funds or that forces the Club to raise funds at significantly higher interest rates than usual.

The Club manages liquidity risk by maintaining a balance between continuity of funding and flexibility. The Club maintains a level of cash deemed sufficient to finance its operations. As part of its liquidity risk management, the Club regularly evaluates its projected and actual cash flows.

As of 30 September 2025, the Club's financial liabilities have a maturity of less than one year, except for those considered to be due and demandable.

Credit Risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The investment of the Club's cash resources is managed so as to minimize risk while seeking to enhance yield. The Club's holding of cash in bank exposes the Club to credit risk of the counterparty if the counterparty is unwilling or unable to fulfill its obligations, and the Club consequently suffers financial loss. Credit risk management involves entering into financial instruments only with counterparties with acceptable credit standing.

Bank limits are established on the basis of liquidity, capital adequacy and financial stability. Given the high credit standing of its accredited counterparty banks, management does not expect any of these financial institutions to fail in meeting their obligations.

Trade receivable generally pertains to membership dues and club charges. The Club bills and collects from members on a monthly basis. It is the Club's policy to impose surcharge fees on members for any delinquency in payment. Once an account is tagged as delinquent, appropriate actions are taken by the Club such as prohibition of the use of Club's facilities and services. The Club assesses long-outstanding member's receivable account periodically as to future collectability. Club shares of members with long-outstanding balances are placed to public auction for bidding at the management's own terms and minimum pricing to ensure that outstanding balances are delinquent members are recovered.

The Club's maximum exposure to credit risk is equal to the carrying value of its financial assets. These financial assets are considered as high grade and are classified as neither past due nor impaired. The rating is based on the nature of the counterparty.

A. Review of operations 3Q 2025 vs 3Q 2024

The Club incurred a net loss after tax of ₱34.91 million in the third quarter of 2025 from ₱38.67 million net losses during the same period last year. The decrease in loss is mainly driven by continued focus on increasing large events, higher outlet revenues driven by program initiatives and effective upselling in the third quarter of 2025.

As of 30 September 2025, the Club's accounts and other payables are due within one year.

Business segment

The Club serves its members through its amenities. Food and Banquet, memberships and other amenities related to leisure are being offered. The Club commenced its commercial operations on 28 March 2019.

Expenses

Total expenses amounted to ₱80.09 million during the third quarter of 2025, 4% higher than the ₱76.93 million posted for the same period last year.

Project and Capital Expenditure

The Club spent a total of ₱868.74 million for project and capital expenditures of the Club since its inception. All of the capital expenditures were spent on construction and fit-out of the Country Club.

Financial Condition

(c) Dividends

Being a non-profit organization, no profit shall inure to the exclusive benefit of any of its shareholders; hence, no dividends shall be declared in their favor. However, upon the dissolution or liquidation of the Club, shareholders shall be entitled to a pro-rata share of the assets of the Club at the time of its dissolution or liquidation. Recent Sale of Unregistered Securities

All of the Club's outstanding shares were subscribed to by the incorporating shareholders. The Club has not sold any unregistered or exempt securities. Neither has it reacquired any securities, issued new securities, issued securities in exchange for property, services, or other securities, or issued new securities resulting from the modification of outstanding securities.

(d) Corporate Governance

The machinery for corporate governance of the Club is principally contained in the Articles of Incorporation and Amended By-Laws and their amendments. These constitutive documents lay down, among others, the basic structure of governance, minimum qualifications of directors, and the principal duties of the Board of Directors and officers of the Corporation.

The Club has adopted a Manual of Corporate Governance in the form accordance with the Securities Regulation Code. The function of the Manual of Corporate Governance is to supplement and complement the Club's Articles of Incorporation and By-Laws by setting forth principles of good and transparent governance.

The Board of Directors, Management, officers and employees of the Club commit themselves to the principles and best practices of governance contained in the Manual of Corporate Governance as a guide in the attainment of its corporate goals. The Club shall make a continuing effort to create awareness of good corporate governance within the organization.

New initiatives are regularly pursued to develop and adopt corporate governance best practices and to build the right corporate culture across the organization. The Corporation faithfully observes and implements the corporate governance policies of the Securities and Exchange Commission. Management continues to evaluate existing company policies and procedures in

light of the recently amended Manual of Corporate Governance to ensure the Corporation's conformity thereto.

The Manual of Corporate Governance was amended pursuant to the Code of Corporate Governance for Public Companies and Registered Issuers issued by the SEC through SEC MC No. 24, series of 2019. The amendments were approved by the Board of Directors on 26 June 2020. The Amended Manual of Corporate Governance was signed by then Chairman Leonardo L. Leonio and was filed with the SEC on 10 July 2020.

Subsequently after filing the Amended Manual of Corporate Governance, the SEC issued SEC MC No. 20, series of 2020 which required that the Amended Manual of Corporate Governance be signed by both the Chairman and the Compliance Officer. After the election of Mr. Bernard Vincent O. Dy as Chairman, and Ms. Ma. Luisa D. Chiong, as Compliance Officer, at the Organizational Board Meeting held on 25 November 2020, the Amended Manual of Corporate Governance were signed by the Chairman and Compliance Officer and was refiled with the SEC on 18 December 2020.

On 30 September 2021, the Board of Directors authorized the review of the Manual on Corporate Governance to improve the Club's compliance with the SEC's Code of Corporate Governance. On 8 August 2022, the Board of Directors approved and ratified the revised Manual on Corporate Governance with the following amendments: the inclusion of express provisions on (1) Board Diversity; (2) Retirement Policy; (3) Appointment of the Lead Independent Director ("ID"); (4) Separate Periodic Meetings by the Non-Executive Directors; (5) Updating of the List of Executive Officers; and (6) Alternative Dispute Mechanism for Intra-Corporate Dispute, as well as the reorganization of the following: (1) the Audit and Risk Committee into the Audit and Risk Oversight Committee; and (2) the Nomination and Remuneration Committee into the Corporate Governance and Nomination Committee.

Upon the written request of the stockholder, the Corporation undertakes to furnish said stockholder with a copy of the SEC Form 17-A, free of charge. Any written request for a copy of SEC Form 17-A shall be addressed to:

Report on the Audits of the Financial Statements

Our Opinion

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of Alviera Country Club, Inc (the "Club") as at December 31, 2024 and 2023, and its financial performance and its cash flows for the years then ended in accordance with Philippine Financial Reporting Standards (PFRS) Accounting Standards.

What we have audited

The financial statements of the Club comprise:

- the statements of financial position as at December 31, 2024 and 2023;
- the statements of total comprehensive loss for years ended December 31, 2024 and 2023;
- the statements of changes in equity for the years ended December 31, 2024 and 2023;
- the statements of cash flows for the years ended December 31, 2024 and 2023; and
- the notes to the financial statements, comprising material accounting policy information and other explanatory information.

Basis for Opinion

We conducted our audits in accordance with Philippine Standards on Auditing (PSA). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Club in accordance with the Code of Ethics for Professional Accountants in the Philippines (Code of Ethics), together with the ethical requirements that are relevant to our audit of the financial statements in the Philippines, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics.

Material Uncertainty Relating to Going Concern

We draw attention to Note 1 to the financial statements, which indicates that the Club's current liabilities exceeded its total current assets by P177.4 million and has accumulated deficit of P296.9 million as at December 31, 2024 (2023 - P141.5 million, P242.9 million, respectively). Similarly, the Club incurred a net loss after tax for the year ended December 31, 2024 amounting to P54.0 million (2023 - P45.8 million). These conditions indicate the existence of a material uncertainty which may cast significant doubt about the Club's ability to continue as a going concern.

The Parent Company has issued a letter of support, in which it expressed its intention to support and provide sufficient financial assistance to the Club, as necessary, to maintain the Club as a going concern and to enable it to meet its operating requirements as these fall due. Further, the Club's plans and strategies to address this matter are also discussed in Note 1 to the financial statements.

We have performed sufficient audit procedures to verify the validity of the letter of support from the Parent Company and its financial capability to make good of its commitment to the Club and management's plans and strategies. Our opinion is not modified in respect of this matter.

Other Matter

The financial statements of the Club for the year ended December 31, 2022 were audited by another firm of auditors whose report, dated March 31, 2023, expressed an unmodified opinion on those statements.

Other Information

Management is responsible for the other information. The other information comprises the information included in the SEC Form 20-IS (Definitive Information Statement) and SEC Form 17-A, but does not include the financial statements and our auditor's report thereon. The SEC Form 20-IS (Definitive Information Statement) and SEC Form 17-A are expected to be made available to us after the date of this auditor's report.

Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audits of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the SEC Form 20-IS (Definitive Information Statement) and SEC Form 17-A, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and, if required by Securities Regulation Code 68, to the Securities and Exchange Commission.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation of the financial statements in accordance with PFRS Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Club's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Club or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Club's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with PSA will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with PSA, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Club's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

Independent Auditor's Report
To the Board of Directors and Stockholders of
Alviera Country Club, Inc.
Page 4

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Club's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Club to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on the Bureau of Internal Revenue Requirement

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplementary information in Note 15 to the financial statements is presented for the purposes of filing with the Bureau of Internal Revenue and is not a required part of the basic financial statements. Such supplementary information is the responsibility of management and has been subjected to the auditing procedures applied in our audits of the basic financial statements. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

1 General information

(a) Corporate information

Alviera Country Club, Inc. (the "Club") was registered with the Securities and Exchange Commission (SEC) on July 9, 2014. It was established primarily to construct, maintain, manage and carry on the business of a sports and leisure club and its facilities in the Municipality of Porac, Pampanga, for the amusement, entertainment, recreational and athletic activities, on a non-profit basis, of its members. The Club is a subsidiary of Nuevocentro, Inc. (NCI), the Parent Company. NCI's parent is Ayala Land, Inc. (ALI). ALI's parent is Ayala Corporation (AC). AC and ALI are incorporated in the Republic of the Philippines and are both listed in the Philippine Stock Exchange.

On July 17, 2014, the Board of Directors (BOD) approved the application for the registration and licensing with the SEC of the Club's 6,800 shares, consisting of 3,700 Class A no par value shares, 2,600 Class B no par value shares, 300 Class C no par value shares and 200 Class D no par value shares, to be offered to the public. The SEC issued the Certificate of Permit to Offer securities for Sale on May 6, 2015.

The Club is exempt from payment of income tax on income received from social, recreational, and athletic activities on a non-profit basis provided that no part of the Club's income shall inure to the benefit of any of its members, trustees and officers. Under Section 30 (E) of the Tax Reform Act of 1997, an organization organized for recreational, sports and athletic activities shall be exempt from payment of income tax on income received from aforementioned activities.

On August 3, 2012, the Bureau of Internal Revenue (BIR) has issued Revenue Memorandum Circular (RMC) No. 35-2012 clarifying that clubs organized and operated exclusively for pleasure, recreation and other non-profit purposes are subject to income tax and value-added tax (VAT) on their income from whatever source, including but not limited to membership fees, assessment dues, rental income, and service fees.

On August 13, 2019, the Supreme Court (SC) declared that membership fees, assessment dues, and fees of similar nature collected by Clubs which are organized and operated exclusively for pleasure, recreation, and other nonprofit purposes do not constitute as: (a) "the income of recreational clubs from whatever source" that are "subject to income tax"; and (b) part of the "gross receipts of recreational clubs" that are "subject to VAT". Starting October 1, 2020, the Club no longer collect output VAT on membership fees and fees of similar nature.

The Club started its commercial operations last March 28, 2019 and had its official Grand Launch on July 31, 2019.

The Club's registered office address and principal place of business is at Alviera Country Club, Brgy. Hacienda Dolores, Porac, Pampanga.

(b) Status of Operations

In 2024, the Club incurred net losses after tax amounting to P54,040,574 (2023 - P45,846,877), resulting in deficit of P296,939,342 (2023 - P242,898,768). Also, as at December 31, 2024, the Club's current liabilities exceeded its total current assets by P177,440,881 (2023 - P141,521,126). These conditions indicate the existence of a material uncertainty which may cast significant doubt about the Club's ability to continue as a going concern and, therefore, it may be unable to realize its assets and discharge its liabilities in the normal course of business.

The Club's Parent Company is committed to provide the necessary financial support for the Club's working capital requirements to meet its liabilities and other possible obligation and responsibilities in order for it to continue its business operations as a going concern.

In addition, management has assessed that the Club is still able to maintain sufficient liquidity through laying out projects, new marketing strategies and partnership with its related parties to boost the usage of its members of the Club's facilities. Accordingly, the Club's financial statements have been prepared on the assumption that the Company will continue as a going concern as at and for the years ended December 31, 2024 and 2023.

(c) Approval of the financial statements

The accompanying financial statements were authorized for issuance by the BOD on March 19, 2025.

Salaries and other benefits pertain to salaries and mandatory government benefits given to direct employees of the Club.

Taxes and licenses pertain to payment of real property taxes and permits of the Club.

Professional fees pertain to incurred legal and audit fees.

Supplies pertain to office supplies used for administrative purposes.

Others include hygiene and medical supply kits, training and development, meals and drinking water and employee relations and activities incurred during the year.

11 Financial assets and financial liabilities

Fair value information

The carrying values of the Club's cash in banks, trade receivables, due from related parties and deposits and financial liabilities classified under accounts and other payables approximate their fair values due to the short-term contractual nature of transactions involving these financial instruments.

Fair value hierarchy

As at December 31, 2024, and 2023, the Club has no financial asset and liability carried at fair value.

Financial risk management objectives and policies

The Club's principal financial instruments comprise of cash in banks, deposits, trade receivables, due from related parties, and financial liabilities classified under accounts and other payables. The main purpose of the Club's financial instruments is to fund operational and capital expenditures.

The main risk arising from the use of the financial instruments are credit risk and liquidity risk.

(a) *Credit risk*

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The investment of the Club's cash resources is managed so as to minimize risk while seeking to enhance yield. The Club's holding of cash in bank exposes the Club to credit risk of the counterparty if the counterparty is unwilling or unable to fulfill its obligations, and the Club consequently suffers financial loss. Credit risk management involves entering into financial instruments only with counterparties with acceptable credit standing.

Bank limits are established on the basis of liquidity, capital adequacy and financial stability. Given the high credit standing of its accredited counterparty banks, management does not expect any of these financial institutions to fail in meeting their obligations.

The maximum exposure to credit risk for the Club's financial assets as at December 31 are as follows:

	Notes	2024	2023
Cash in banks	2	7,925,933	10,657,613
Accounts and other receivables*	3	10,428,657	11,178,985
Deposits		1,269,785	1,269,785
		19,624,375	23,106,383

*excluding receivables from employees

Based on management's experience, exposure to bad debts of trade receivables is not significant and is mitigated as the fair value of the club shares that each members holds/owns is more than the outstanding trade receivable of the member. No expected credit loss was recognized in 2024 and 2023.

(b) *Liquidity risk*

Liquidity risk is defined by the Club as the risk of losses arising from funding difficulties due to deterioration in market conditions and/or the financial position of the Club that make it difficult for the Club to raise the necessary funds or that forces the Club to raise funds at significantly higher interest rates than usual.

The Club manages liquidity risk by maintaining a balance between continuity of funding and flexibility. The Club maintains a level of cash deemed sufficient to finance its operations.

As part of its liquidity risk management, the Club regularly evaluates its projected and actual cash flows.

The table below analyzes the Club's financial assets and liabilities as at December 31, 2024 and 2023. The amounts disclosed in the table are the contractual undiscounted cash flows which are equal to their carrying balances, as the impact of discounting is not significant.

Accounts and other payables exclude payables to government agencies aggregating to P414,732 (2023 - P367,535) which are considered as non-financial liabilities.

As at December 31, 2024, and 2023, the Club's financial liabilities are all due and demandable.

12 Changes in advances from the Parent Company

The reconciliations of the movements in the Club's financing activities through advances from the Parent Company are presented below:

	At January 1	Cash flows	Non-cash changes	At December 31 (Note 9)
2024	132,378,094	34,000,000	4,141,799	170,519,893
2023	113,019,893	19,358,201	-	132,378,094

Non-cash changes refer to expenses paid by the Parent Company, on behalf of the Club, and reimbursable to the Club.

13 Significant accounting judgments and estimates

The preparation of the financial statements in compliance with Philippine Financial Reporting Standards (PFRS) Accounting Standards requires the Club to make judgments, estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. The judgments, estimates and assumptions used are based on management's evaluation of relevant facts and circumstances as at the date of the financial statements. Future events may occur which will cause the assumptions used in arriving at the estimates to change. The effects of any change in estimates are reflected in the financial statements as they become reasonably determinable.

13.1 Significant judgments

In the process of applying the Club's accounting policies, management has made the following judgments, apart from those involving estimations, which have the most significant effects on the amounts recognized in the financial statements:

Going concern assessment

The use of the going concern assumption involves management making judgments, at a particular point in time, about the future outcome of events or conditions that are inherently uncertain. The underlying assumption in the preparation of financial statements is that the Club has neither the intention nor the need to liquidate. Management takes into account a whole range of factors which include, but not limited to, Parent Company's ability to provide financial support, expected operations and profitability and potential sources of additional financing. Management prepares the financial statements on a going concern basis as management has future plans regarding the Club, as discussed in Note 1.

Identification of contract with customers under PFRS 15

The Club applies PFRS 15 guidance to a portfolio of contracts with similar characteristics as the Club reasonably expects that the effects on the financial statements if applying this guidance to the portfolio would not differ materially from applying this guidance to the individual contracts within that portfolio. Hence, the Club viewed each transaction receipt as one contract.

Identifying performance obligations

The Club identifies performance obligations by considering whether the promised goods or services in the contract are distinct goods or services. A good or service is distinct when the customer can benefit from the good or service on its own or together with other resources that are readily available to the customer is separately identifiable from the other promises in the contract.

Determining whether the Club is acting as a principal or agent

The Club assesses its revenue arrangements against specific criteria in order to determine if it is acting as principal or agent. The following criteria indicate whether the Club is acting as a principal or an agent:

- The Club has the primary responsibility for providing services to the customer;
- The Club has latitude in establishing price, either directly or indirectly, for example by providing additional services; and,
- The Club bears the customer's credit risk for the amount receivable from the customer.

The Club has concluded that generally, it is acting as a principal in its revenue arrangements.

Determination of taxable profit, tax bases, unused tax losses, unused tax credits and tax rates

The Club has assessed whether it has any uncertain tax treatments. The Club applies significant judgement in identifying uncertainties over its income tax treatments. The Club assesses whether the identified uncertainties had an impact on its financial statements. The Club determined, based on its tax assessment, in consultation with its tax counsel, that it has no uncertain tax treatments.

Recognizing deferred tax assets

The Club reviews the carrying amounts of deferred taxes at the end of each reporting period and reduces deferred tax assets to the extent that it is no longer probable that sufficient taxable income will be available to allow all or part of the deferred tax assets to be utilized. However, there is no assurance that the Club will generate sufficient taxable profits to allow all or part of the deferred tax assets to be utilized. The Club looks at its projected performance in assessing the sufficiency of future taxable income. The Club's unrecognized deferred tax assets as at December 31, 2024 amounted to P74,109,136 (2023 - P56,886,189) (Note 8).

Assessing recoverability of input VAT

The Club assesses on a regular basis if there is objective evidence of impairment of input VAT. The amount of impairment loss is measured as the difference between the carrying amount and the estimated recoverable amount. The recognition of impairment requires the Club to assess how it could claim its accumulated input VAT.

The Club has accumulated excess input VAT since its establishment in 2014. Management has the remedy to claim these accumulated input VAT through addition of new revenue streams.

As at December 31, 2024, the carrying values of input VAT amounts to P107,839,350 (2023 - P108,494,818). No allowance for impairment losses were recognized for input VAT for the years ended December 31, 2024 and 2023.

13.2 Significant estimates

In the process of applying the Club's accounting policies, management has made the following estimates and assumptions, which have the most significant effects on the amounts recognized in the financial statements:

Estimating allowance for ECL of trade receivables and due from related parties

The Club assesses long-outstanding member's receivable account periodically as to future collectability. Club shares of members with long-outstanding balances are placed to public auction for bidding at the management's own terms and minimum pricing to ensure that outstanding balances of delinquent members are recovered. The Club defines a financial asset as in default when contractual payments are 120 days past due. However, in certain cases, the Club may also consider a receivable to be in default when internal or external information indicates that the Club is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Club.

For the Club's due from related parties, evaluation includes the review of the credit risk of the debtor through a review of qualitative and quantitative information. Factors being considered includes significant changes in the business, financial and economic conditions, regulatory and economic environment to which the debtor operates, among others.

The information about the ECLs on the Club's trade receivables is disclosed in Note 11.

Estimating net realizable value (NRV) of inventories

Inventories are presented at the lower of cost or NRV. Estimation of NRV is based on the most reliable evidence available at the time the estimates are made of the amount the inventories are expected to be realized. A review of the items of inventories is performed at the end of each reporting period to reflect the accurate valuation of inventories in the financial statements.

The carrying values of inventories amounted to P888,432 and P730,730 as at December 31, 2024 and 2023, respectively. No provision, allowance and write-off for inventory obsolescence were recognized in 2024 and 2023 (Note 4).

Evaluating asset impairment

The Club reviews property and equipment, and other non-financial assets (excluding inventories and input VAT) for impairment in value. This includes considering certain indications of impairment such as significant changes in asset usage, significant decline in assets' market value, obsolescence or physical damage of an asset, significant underperformance relative to expected historical or projected future operating results and significant negative industry or economic trends, taking into consideration the impact of adverse events.

Internal and external sources of information are reviewed at each year-end reporting date to identify indications that the Club's non-financial asset may be impaired, or an impairment loss previously recognized no longer exists or may be decreased. If any such indication exists, the recoverable amount of the non-financial asset is estimated.

As described in the accounting policy, the Club estimates the recoverable amount as the higher of the fair value less cost of disposal and value-in-use. In determining the present value of estimated future cash flows expected to be generated from the continued use of the assets, the Club is required to make estimates and assumptions that may affect other current and non-current assets, and property and equipment. An impairment loss would be recognized whenever evidence exists that the carrying value is not recoverable. For purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows.

No impairment losses were recognized for the Club's non-financial assets. The carrying values of the non-financial assets as at December 31 follow:

	2024	2023
Property and equipment, net	728,137,534	748,691,415
Other current assets	1,803,715	303,460
Advances to contractors	-	144,884
	729,941,249	749,139,759

14 Summary of material accounting policies

The material accounting policies that have been used in the preparation of the financial statements are summarized below. These policies have been consistently applied to all the years presented, unless otherwise stated.

14.1 Basis of preparation

The financial statements of the Club have been prepared using the historical cost basis and are presented in Philippine Peso, the Club's functional currency. All amounts are rounded to the nearest peso unless otherwise indicated.

Statement of compliance

The financial statements of the Club have been prepared in compliance with PFRS Accounting Standards.

Changes in accounting policies and disclosures

(a) Amendments to existing standards adopted by the Club effective January 1, 2024

The following amendments to existing standards have been adopted by the Club effective January 1, 2024:

- PAS 1, *Presentation of Financial Statements (Classification of Liabilities as Current or Non-current and Non-current Liabilities with Covenants)*

Amendments made to PAS 1 Presentation of Financial Statements in 2020 and 2022 clarified that liabilities are classified as either current or non-current, depending on the rights that exist at the end of the reporting period. Classification is unaffected by the entity's expectations or events after the reporting date (e.g. the receipt of a waiver or a breach of covenant).

The amendments require disclosures if an entity classifies a liability as non-current and that liability is subject to covenants that the entity must comply with within 12 months of the reporting date. The disclosures include:

- the carrying amount of the liability
- information about the covenants, and
- facts and circumstances, if any, that indicate that the entity may have difficulty complying with the covenants.

The amendments also clarify what PAS 1 means when it refers to the 'settlement' of a liability. Terms of a liability that could, at the option of the counterparty, result in its settlement by the transfer of the entity's own equity instrument can only be ignored for the purpose of classifying the liability as current or non-current if the entity classifies the option as an equity instrument. However, conversion options that are classified as a liability must be considered when determining the current/non-current classification of a convertible note.

The amendments has been applied retrospectively in accordance with the normal requirements in PAS 8 'Accounting Policies, Changes in Accounting Estimates and Errors'.

There are no other new standards, interpretations and amendments to existing standards effective January 1, 2024 that are considered to be relevant or have a material impact on the Club's financial statements.

(b) New standard not yet effective and not early adopted by the Club

- PFRS 18 Presentation and Disclosure in Financial Statements (*Effective beginning on or after January 1, 2027*)

PFRS 18 will replace PAS 1 Presentation of financial statements, introducing new requirements that will help to achieve comparability of the financial performance of similar entities and provide more relevant information and transparency to users. Even though PFRS 18 will not impact the recognition or measurement of items in the financial statements, its impacts on presentation and disclosure are expected to be pervasive, in particular those related to the statement of financial performance and providing management-defined performance measures within the financial statements.

Management is currently assessing the detailed implications of applying the new standard on the Club's financial statements. From the high-level preliminary assessment performed, the following potential impacts have been identified:

- Although the adoption of PFRS 18 will have no impact on the Club's net profit, the Club expects that grouping items of income and expenses in the statement of profit or loss into the new categories will impact how operating profit is calculated and reported. From the high-level impact assessment that the Club has performed, the following items might potentially impact operating profit:
- Foreign exchange differences currently aggregated in the line item 'other income and other gains/(losses) - net' in operating profit might need to be disaggregated, with some foreign exchange gains or losses presented below operating profit.

The line items presented on the primary financial statements might change as a result of the application of the concept of 'useful structured summary' and the enhanced principles on aggregation and disaggregation. In addition, since goodwill will be required to be separately presented in the statement of financial position, the Club will disaggregate goodwill and other intangible assets and present them separately in the statement of financial position.

The Club does not expect there to be a significant change in the information that is currently disclosed in the notes because the requirement to disclose material information remains unchanged; however, the way in which the information is grouped might change as a result of the aggregation/disaggregation principles. In addition, there will be significant new disclosures required for:

- management-defined performance measures;
- a break-down of the nature of expenses for line items presented by function in the operating category of the statement of profit or loss - this break-down is only required for certain nature expenses; and
- for the first annual period of application of PFRS 18, a reconciliation for each line item in the statement of profit or loss between the restated amounts presented by applying PFRS 18 and the amounts previously presented applying PAS 1.

From a cash flow statement perspective, there will be changes to how interest received and interest paid are presented. Interest paid will be presented as financing cash flows and interest received as investing cash flows, which is a change from current presentation as part of operating cash flows.

The Club will apply the new standard from its mandatory effective date of January 1, 2027.

Retrospective application is required, and so the comparative information for the financial year ending December 31, 2026 will be restated in accordance with PFRS 18.

There are no other new standards, interpretations and amendments to existing standards not yet effective as at December 31, 2024 reporting period that are considered to be relevant or have a material impact on the Club's financial statements.

14.2 Current and non-current classification

The Club presents assets and liabilities in the statement of financial position based on current and non-current classification.

An asset is current when it is:

- a. expected to be realized or intended to be sold or consumed in normal operating cycle;
- b. held primarily for the purpose of trading;
- c. expected to be realized within twelve (12) months after reporting date; or
- d. cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least 12 months after reporting date.

All other assets are classified as non-current.

A liability is current when:

- a. it is expected to be settled in the normal operating cycle;
- a. it is held primarily for the purpose of trading;
- b. it is due to be settled within 12 months after reporting date; or
- c. there is no unconditional right to defer the settlement of the liability for at least 12 months after reporting date.

The Club classifies all other liabilities as non-current.

14.3 Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible to the Club.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Club uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Club determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Club has determined classes of assets on the basis of the nature, characteristics and risks of the asset and the level of the fair value hierarchy as explained above.

14.4 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

14.4.1 Financial assets

(a) Initial recognition and measurement

Financial assets are classified, at initial recognition, and subsequently measured at amortized cost, fair value through other comprehensive income (OCI), and fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Club's business model for managing them. The Club initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. Financial assets that do not contain a significant financing component or for which the Club has applied the practical expedient are measured at the transaction price determined under PFRS 15.

In order for a financial asset to be classified and measured at amortized cost or fair value through OCI, it needs to give rise to cash flows that are 'solely payments of principal and interest (SPPI)' on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level. Financial assets with cash flows that are not SPPI are classified and measured at FVPL, irrespective of the business model.

The Club's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both. Financial assets classified and measured at amortized cost are held within a business model with the objective to hold financial assets in order to collect contractual cash flows while financial assets classified and measured at FVOCI are held within a business model with the objective of both holding to collect contractual cash flows and selling.

The classification requirements for financial assets are described below:

- Financial assets at amortized cost (debt instruments)
- Financial assets at fair value through OCI with recycling of cumulative gains and losses (debt instruments)
- Financial assets designated at fair value through OCI with no recycling of cumulative gains and losses upon derecognition (equity instruments)
- Financial assets at fair value through profit or loss

As at December 31, 2024, and 2023, the Club's financial assets pertain to financial assets at amortized cost (debt instruments).

(b) Subsequent measurement

Financial assets at amortized cost (debt instruments)

Financial assets at amortized cost are subsequently measured using the effective interest (EIR) method and are subject to impairment. Gains and losses are recognized in profit or loss when the asset is derecognized, modified or impaired.

The Club's financial assets at amortized cost includes cash in banks, accounts and other receivables, and deposits.

(c) Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognized (i.e., removed from the statement of financial position) when:

- The rights to receive cash flows from the asset have expired, or,
- The Club has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Club has transferred substantially all the risks and rewards of the asset, or (b) the Club has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Club has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Club continues to recognize the transferred asset to the extent of its continuing involvement. In that case, the Club also recognized an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Club has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Club could be required to repay.

(d) Impairment of financial assets

The Club recognizes an allowance for expected credit losses (ECLs) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Club expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

For cash in banks, the Club applies the low credit risk simplification.

For accounts and other receivables, the Club applies a simplified approach in calculating ECLs. Therefore, the Club does not track changes in credit risk, but instead recognizes a loss allowance based on lifetime ECLs at each reporting date. The Club has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

The Club considers a receivable in default when contractual payments are 120 days past due. However, in certain cases, the Club may also consider a receivable to be in default when internal or external information indicates that the Club is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Club. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

The Club implements a policy on its receivables, wherein members in the delinquent list or those with accounts that are past due for more than 120 days are reported to the BOD. The respective shares of the members or of the juridical entities they represent shall be ordered sold by the BOD, through an auction, to satisfy the claims of the Club.

14.4.2 Financial liabilities

(a) Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Club's financial liabilities include accounts and other payables, except payables to the government, contract liabilities and payables to related parties and other obligations that meet the above definition (other than liabilities covered by other accounting standards, such as income tax payable).

(b) Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in two categories:

- Financial liabilities at FVPL
- Financial liabilities at amortized cost (interest-bearing loans and borrowings)

After initial recognition, non-interest-bearing loans and borrowings are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the EIR amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of comprehensive loss.

(c) Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized through profit or loss in the statement of comprehensive loss.

14.4.3 Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position if there is a currently enforceable legal right to set off the recognized amounts and there is an intention to settle on a net basis, to realize the asset and settle the liability simultaneously. The Club assesses that it has a currently enforceable right of offset if the right is not contingent on a future event and is legally enforceable in the normal course of business, event of default, and event of insolvency or bankruptcy of the Club and all of the counterparties.

14.5 Property and equipment

Property and equipment, except land, are stated at cost net of accumulated depreciation, amortization and accumulated impairment losses, if any. Land held for use in operations is carried at cost less any impairment losses. The initial cost of land comprises its purchase price and any directly attributable costs of bringing the land to the condition necessary for its intended use. Subsequently, land is not subject to depreciation.

The initial cost of property and equipment consists of its purchase price including import duties and any directly attributable costs of bringing the property and equipment to its working condition and location for its intended use. Cost also includes the cost of replacing part of such property and equipment when the recognition criteria are met.

Expenditures incurred after the property and equipment have been put into operations, such as repairs and maintenance are recognized in profit or loss in the year the costs are incurred. In situations where it can be clearly demonstrated that the expenditures have resulted in an increase in future economic benefits expected to be obtained from the use of an item of property and equipment beyond its originally assessed standard of performance, the expenditures are capitalized as additional costs of property and equipment.

Depreciations are computed on a straight-line basis over the estimated useful lives of the property and equipment. The estimated useful lives of the property and equipment are as follows:

Asset type	Number of years
Building	40
Facilities, furniture, fixtures and equipment	3 to 5
Transportation equipment	3 to 5

The Club determines depreciation for each significant part of an item of property and equipment.

The estimated useful lives and method of depreciation are reviewed and adjusted, if appropriate, at each financial year end to ensure that the years and method of depreciation and amortization are consistent with the expected pattern of economic benefits from items of property and equipment.

An item of property and equipment is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the year the asset is derecognized.

Fully depreciated property and equipment are retained in the books until these are no longer in use.

14.6 Impairment of non-financial assets

Advances to contractors, input VAT and other non-current assets

Assets such as advances to contractors, input VAT and other non-current assets, are assessed at each reporting date to determine whether there is any indication that these assets are impaired. If these assets are impaired, an allowance for impairment is set-up. The amounts and timing of recorded expenses for any period would differ if the Club made different judgments or utilized different estimates. An increase in allowance for impairment losses would increase recorded expenses and decrease advances to contractors, input VAT and other non-current assets.

Recovery of impairment losses recognized in prior year is recorded when there is an indication that the impairment losses recognized for the asset no longer exist or has decreased. The recovery is recorded through profit or loss in the statement of comprehensive loss. However, the increase in carrying amount of an asset due to recovery of an impairment loss is recognized to the extent it does not exceed the carrying amount that would have been determined had there been no impairment loss recognized for that asset in prior year.

Property and equipment

The Club assesses at each reporting date whether there is an indication that property and equipment may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Club estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash generating unit's (CGU) fair value less costs of disposal and its value-in-use. It is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value-in-use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Impairment losses of continuing operations are recognized through profit or loss in those expense categories consistent with the function of the impaired asset.

An assessment is made at each reporting date to determine whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the recoverable amount is estimated. A previously recognized impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized through profit or loss in the statement of comprehensive loss unless the asset is carried at revalued amount, in which case, the reversal is treated as a revaluation increase.

14.7 Equity

Capital stock

Capital stock is measured at par value for all shares issued and outstanding. When the Club issues more than one class of stock, a separate account is maintained for each class of stock and the number of shares issued.

Deficit

Deficit represents accumulated losses of the Club. A deficit is not an asset but a deduction from equity.

14.8 Revenue from contracts with customers

The Club's revenue from contracts with customers primarily consist of membership dues, service income and sale of goods. Revenue from contracts with customers is recognized when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Club expects to be entitled in exchange for those goods or services. The Club has generally concluded that it is the principal in its revenue arrangements.

The following are the Club's performance obligations:

(i) Membership dues

Revenue from membership dues is recognized over the time the members are provided access to the Club's room accommodation, golf course, sports complex, game rooms, restaurants and other amenities. Transaction price is determined to be the BOD-approved rate for monthly membership dues. Each monthly membership dues are considered as a single performance obligation, therefore it is not necessary to allocate the transaction price. Any advance payments are recorded under "Contract liabilities" under accounts and other payables account in the statement of financial position.

(ii) Service income

Service income includes revenue from providing room accommodation, guest fees and income from the use of the Club's facilities and amenities such as golf course, sports complex, game rooms and other Club amenities. Revenue is recognized over the time the services are rendered and/or facilities and amenities are used.

(iii) Sale of goods

Revenue from sale of food and beverages and merchandise are recognized when control of the goods is transferred to the customers, generally when goods are delivered to and accepted by the customers.

(iv) Other income

Other income is recognized at a point in time when it is earned and realizable or when the Club's right to receive the payment is established.

14.9 Contract balances

Trade receivables

A receivable is recognized when the Club has the unconditional right to collect an amount of consideration due from the customer (i.e., only the passage of time is required before payment of the consideration is due).

Contract liabilities

A contract liability is recognized if a payment is received or payment is due (whichever is earlier) from a customer before the Club transfers the related goods or services. Contract liabilities are recognized as revenue when the Club performs under the contract. Membership dues and consumables collected in advance are recognized as contract liabilities in the statement of financial position.

14.10 Taxes

Current income tax

Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the tax authority. The tax rates and tax laws used to compute the amount are those enacted or substantively enacted as at the end of the reporting period.

Current income tax for current and prior periods shall, to the extent unpaid, be recognized as a liability and is presented as income tax payable in the statement of financial position. If the amount already paid in respect of current and prior periods exceeds the amount due for those periods, the excess shall be recognized as an asset and is presented as part of other current assets in the statement of financial position.

Deferred tax

Deferred income tax is provided, using the liability method, on all temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable income will be available to allow all or part of the deferred tax assets to be utilized. Any unrecognized deferred tax assets are reassessed at each reporting date and are recognized to the extent that it has become probable that future taxable income will allow all or part of the deferred tax assets to be recovered.

Deferred tax assets and liabilities are measured at the tax rate that is expected to apply to the period when the asset is realized, or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at the reporting date.

14.11 Provisions

Provisions are recognized when the Club has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Club expects some or all of a provision to be reimbursed, the reimbursement is recognized as a separate asset but only when the reimbursement is virtually certain. Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate.

14.12 Employee benefits

The Club's long term employee benefit is measured using the accrual method based on the minimum retirement benefits required under RA No. 7641, otherwise known as The Philippine Retirement Pay Law. The accrual method is applied by calculating the expected liability as at reporting date using the current salary of the entitled employees and the employees' years of service, without consideration of future changes in salary rates and service periods.

14.13 Reclassification

Certain reclassification was made in the December 31, 2023 financial statements of the Club to conform to the current year's presentation. The reclassification did not have an impact to the retained earnings and reported financial position as at January 1, 2024 and 2023 and to the reported net loss, comprehensive loss, equity and cash flows for the years ended December 31, 2024 and 2023.

14.14 Events after the reporting period

Post year-end events that provide additional information about the Club's financial position at the reporting date (adjusting events) are reflected in the financial statements. Post year-end events that are non-adjusting events are disclosed in the notes to financial statements when material.

15 Supplementary tax information under Revenue Regulations no. 15-2010

The Club reported and/or paid the following types of taxes for 2024:

a. Value-added Tax (VAT)

(i) *Output VAT*

Net sales/receipt and Output VAT declared in the Club's VAT returns for the year 2024:

	Net sales/receipts	Output VAT

Withholding taxes on compensation and benefits	1,032,794	75,105	1,107,899
	<u>1,600,857</u>	<u>152,689</u>	<u>1,753,546</u>

The accrued withholding taxes are included under accounts and other payables in the statement of financial position.

d. Documentary stamp tax (DST) and other taxes

The Club has no transaction subject to DST and other taxes not specified above during 2024.

e. Tax assessments and cases

On October 1, 2024, the Club received an assessment on real property taxes for building improvements covering periods of 2020 to 2024 amounting to P2,242,761, which was settled subsequently in October 2024.

There are no other outstanding final tax assessment and tax cases under preliminary investigation, litigation, and/or prosecution in courts or bodies outside of the BIR as at December 31, 2024.

Notes to the Financial Statements

As at and for the periods ended September 30, 2025 and December 31, 2024

(All amounts are shown in Philippine Peso unless otherwise stated)

1 General information*(a) Corporate information*

Alviera Country Club, Inc. (the "Club") was registered with the Securities and Exchange Commission (SEC) on July 9, 2014. It was established primarily to construct, maintain, manage and carry on the business of a sports and leisure club and its facilities in the Municipality of Porac, Pampanga, for the amusement, entertainment, recreational and athletic activities, on a non-profit basis, of its members. The Club is a subsidiary of Nuevocentro, Inc. (NCI), the Parent Company. NCI's parent is Ayala Land, Inc. (ALI). ALI's parent is Ayala Corporation (AC). AC and ALI are incorporated in the Republic of the Philippines and are both listed in the Philippine Stock Exchange.

On July 17, 2014, the Board of Directors (BOD) approved the application for the registration and licensing with the SEC of the Club's 6,800 shares, consisting of 3,700 Class A no par value shares, 2,600 Class B no par value shares, 300 Class C no par value shares and 200 Class D no par value shares, to be offered to the public. The SEC issued the Certificate of Permit to Offer securities for Sale on May 6, 2015.

The Club is exempt from payment of income tax on income received from social, recreational, and athletic activities on a non-profit basis provided that no part of the Club's income shall inure to the benefit of any of its members, trustees and officers. Under Section 30 (E) of the Tax Reform Act of 1997, an organization organized for recreational, sports and athletic activities shall be exempt from payment of income tax on income received from aforementioned activities.

On August 3, 2012, the Bureau of Internal Revenue (BIR) has issued Revenue Memorandum Circular (RMC) No. 35-2012 clarifying that clubs organized and operated exclusively for pleasure, recreation and other non-profit purposes are subject to income tax and value-added tax (VAT) on their income from whatever source, including but not limited to membership fees, assessment dues, rental income, and service fees.

On August 13, 2019, the Supreme Court (SC) declared that membership fees, assessment dues, and fees of similar nature collected by Clubs which are organized and operated exclusively for pleasure, recreation, and other nonprofit purposes do not constitute as: (a) "the income of recreational clubs from whatever source" that are "subject to income tax"; and (b) part of the "gross receipts of recreational clubs" that are "subject to VAT". Starting October 1, 2020, the Club no longer collect output VAT on membership fees and fees of similar nature.

The Club started its commercial operations last March 28, 2019 and had its official Grand Launch on July 31, 2019.

The Club's registered office address and principal place of business is at Alviera Country Club, Brgy. Hacienda Dolores, Porac, Pampanga.

10 Financial assets and financial liabilities

Fair value information

The carrying values of the Club's cash in banks, trade receivables, due from related parties and deposits and financial liabilities classified under accounts and other payables approximate their fair values due to the short-term contractual nature of transactions involving these financial instruments.

Fair value hierarchy

As at September 30, 2025 and December 31, 2024, the Club has no financial asset and liability carried at fair value.

Financial risk management objectives and policies

The Club's principal financial instruments comprise of cash in banks, deposits, trade receivables, due from related parties, and financial liabilities classified under accounts and other payables. The main purpose of the Club's financial instruments is to fund operational and capital expenditures.

The main risk arising from the use of the financial instruments are credit risk and liquidity risk.

Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The investment of the Club's cash resources is managed so as to minimize risk while seeking to enhance yield. The Club's holding of cash in bank exposes the Club to credit risk of the counterparty if the counterparty is unwilling or unable to fulfill its obligations, and the Club consequently suffers financial loss. Credit risk management involves entering into financial instruments only with counterparties with acceptable credit standing.

Bank limits are established on the basis of liquidity, capital adequacy and financial stability. Given the high credit standing of its accredited counterparty banks, management does not expect any of these financial institutions to fail in meeting their obligations.

Based on management’s experience, exposure to bad debts of trade receivables is not significant and is mitigated as the fair value of the club shares that each members holds/owns is more than the outstanding trade receivable of the member. No expected credit loss was recognized as at September 30, 2025 and December 31, 2024.

(a) *Liquidity risk*

Liquidity risk is defined by the Club as the risk of losses arising from funding difficulties due to deterioration in market conditions and/or the financial position of the Club that make it difficult for the Club to raise the necessary funds or that forces the Club to raise funds at significantly higher interest rates than usual.

The Club manages liquidity risk by maintaining a balance between continuity of funding and flexibility. The Club maintains a level of cash deemed sufficient to finance its operations.

As part of its liquidity risk management, the Club regularly evaluates its projected and actual cash flows.

As at September 30, 2025, and December 31, 2024, the Club’s financial liabilities are all due and demandable.

11 Changes in advances from the Parent Company

The reconciliations of the movements in the Club’s financing activities through advances from the Parent Company are presented below:

	At January 1	Cash flows	Non-cash changes	At December 31 (Note 8)
September 30, 2025	170,519,893	35,000,000	-	205,519,893
December 31, 2024	132,378,094	34,000,000	4,141,799	170,519,893

Non-cash changes refer to expenses paid by the Parent Company, on behalf of the Club, and reimbursable to the Club.

12 Significant accounting judgments and estimates

The preparation of the financial statements in compliance with Philippine Financial Reporting Standards (PFRS) Accounting Standards requires the Club to make judgments, estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. The judgments, estimates and assumptions used are based on management’s evaluation of relevant facts and circumstances as at the date of the financial statements. Future events may occur which will cause the assumptions used in arriving at the estimates to change. The effects of any change in estimates are reflected in the financial statements as they become reasonably determinable.

12.1 Significant judgments

In the process of applying the Club’s accounting policies, management has made the following judgments, apart from those involving estimations, which have the most significant effects on the amounts recognized in the financial statements:

Going concern assessment

The use of the going concern assumption involves management making judgments, at a particular point in time, about the future outcome of events or conditions that are inherently uncertain. The underlying assumption in the preparation of financial statements is that the Club has neither the intention nor the need to liquidate. Management takes into account a whole range of factors which include, but not limited to, Parent Company’s ability to provide financial support, expected operations and profitability and potential sources of additional financing. Management prepares the financial statements on a going concern basis as management has future plans regarding the Club.

Identification of contract with customers under PFRS 15

The Club applies PFRS 15 guidance to a portfolio of contracts with similar characteristics as the Club reasonably expects that the effects on the financial statements if applying this guidance to the portfolio would not differ materially from applying this guidance to the individual contracts within that portfolio. Hence, the Club viewed each transaction receipt as one contract.

Identifying performance obligations

The Club identifies performance obligations by considering whether the promised goods or services in the contract are distinct goods or services. A good or service is distinct when the customer can benefit from the good or service on its own or together with other resources that are readily available to the customer is separately identifiable from the other promises in the contract.

Determining whether the Club is acting as a principal or agent

The Club assesses its revenue arrangements against specific criteria in order to determine if it is acting as principal or agent. The following criteria indicate whether the Club is acting as a principal or an agent:

- The Club has the primary responsibility for providing services to the customer;
- The Club has latitude in establishing price, either directly or indirectly, for example by providing additional services; and,
- The Club bears the customer's credit risk for the amount receivable from the customer.

The Club has concluded that generally, it is acting as a principal in its revenue arrangements.

Determination of taxable profit, tax bases, unused tax losses, unused tax credits and tax rates

The Club has assessed whether it has any uncertain tax treatments. The Club applies significant judgement in identifying uncertainties over its income tax treatments. The Club assesses whether the identified uncertainties had an impact on its financial statements. The Club determined, based on its tax assessment, in consultation with its tax counsel, that it has no uncertain tax treatments.

Recognizing deferred tax assets

The Club reviews the carrying amounts of deferred taxes at the end of each reporting period and reduces deferred tax assets to the extent that it is no longer probable that sufficient taxable income will be available to allow all or part of the deferred tax assets to be utilized. However, there is no assurance that the Club will generate sufficient taxable profits to allow all or part of the deferred tax assets to be utilized. The Club looks at its projected performance in assessing the sufficiency of future taxable income.

Assessing recoverability of input VAT

The Club assesses on a regular basis if there is objective evidence of impairment of input VAT. The amount of impairment loss is measured as the difference between the carrying amount and the estimated recoverable amount. The recognition of impairment requires the Club to assess how it could claim its accumulated input VAT.

The Club has accumulated excess input VAT since its establishment in 2014. Management has the remedy to claim these accumulated input VAT through addition of new revenue streams.

As at September 30, 2025, the carrying values of input VAT amounts to P108,772,928 (December 31, 2024 - P107,839,350). No allowance for impairment losses were recognized for input VAT for the periods ended September 30, 2025 and December 31, 2024.

12.2 Significant estimates

In the process of applying the Club's accounting policies, management has made the following estimates and assumptions, which have the most significant effects on the amounts recognized in the financial statements:

Estimating allowance for ECL of trade receivables and due from related parties

The Club assesses long-outstanding member's receivable account periodically as to future collectability. Club shares of members with long-outstanding balances are placed to public auction for bidding at the management's own terms and minimum pricing to ensure that outstanding balances of delinquent members are recovered. The Club defines a financial asset as in default when contractual payments are 120 days past due. However, in certain cases, the Club may also consider a receivable to be in default when internal or external information indicates that the Club is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Club.

For the Club's due from related parties, evaluation includes the review of the credit risk of the debtor through a review of qualitative and quantitative information. Factors being considered includes significant changes in the business, financial and economic conditions, regulatory and economic environment to which the debtor operates, among others.

Estimating net realizable value (NRV) of inventories

Inventories are presented at the lower of cost or NRV. Estimation of NRV is based on the most reliable evidence available at the time the estimates are made of the amount the inventories are expected to be realized. A review of the items of inventories is performed at the end of each reporting period to reflect the accurate valuation of inventories in the financial statements.

The carrying values of inventories amounted to P865,158 and P888,432 as at September 30, 2025 and December 31, 2024, respectively. No provision, allowance and write-off for inventory obsolescence were recognized in 2025 and 2024 (Note 4).

Evaluating asset impairment

The Club reviews property and equipment, and other non-financial assets (excluding inventories and input VAT) for impairment in value. This includes considering certain indications of impairment such as significant changes in asset usage, significant decline in assets' market value, obsolescence or physical damage of an asset, significant underperformance relative to expected historical or projected future operating results and significant negative industry or economic trends, taking into consideration the impact of adverse events.

Internal and external sources of information are reviewed at each year-end reporting date to identify indications that the Club's non-financial asset may be impaired, or an impairment loss previously recognized no longer exists or may be decreased. If any such indication exists, the recoverable amount of the non-financial asset is estimated.

As described in the accounting policy, the Club estimates the recoverable amount as the higher of the fair value less cost of disposal and value-in-use. In determining the present value of estimated future cash flows expected to be generated from the continued use of the assets, the Club is required to make estimates and assumptions that may affect other current and non-current assets, and property and equipment. An impairment loss would be recognized whenever evidence exists that the carrying value is not recoverable. For purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows.

No impairment losses were recognized for the Club's non-financial assets. The carrying values of the non-financial assets as at September 30, 2025 and December 31, 2024 follow:

	September 30, 2025	December 31, 2024
Property and equipment, net	717,921,238	728,137,534
Other current assets	637,589	1,803,715
	718,558,827	729,941,249

13 Summary of material accounting policies

The material accounting policies that have been used in the preparation of the financial statements are summarized below. These policies have been consistently applied to all the years presented, unless otherwise stated.

13.1 Basis of preparation

The financial statements of the Club have been prepared using the historical cost basis and are presented in Philippine Peso, the Club's functional currency. All amounts are rounded to the nearest peso unless otherwise indicated.

Statement of compliance

The financial statements of the Club have been prepared in compliance with PFRS Accounting Standards.

Changes in accounting policies and disclosures

(a) Amendments to existing standards adopted by the Club effective January 1, 2024

The following amendments to existing standards have been adopted by the Club effective January 1, 2024:

- PAS 1, *Presentation of Financial Statements (Classification of Liabilities as Current or Non-current and Non-current Liabilities with Covenants)*

Amendments made to PAS 1 Presentation of Financial Statements in 2020 and 2022 clarified that liabilities are classified as either current or non-current, depending on the rights that exist at the end of the reporting period. Classification is unaffected by the entity's expectations or events after the reporting date (e.g. the receipt of a waiver or a breach of covenant).

The amendments require disclosures if an entity classifies a liability as non-current and that liability is subject to covenants that the entity must comply with within 12 months of the reporting date. The disclosures include:

- the carrying amount of the liability
- information about the covenants, and
- facts and circumstances, if any, that indicate that the entity may have difficulty complying with the covenants.

The amendments also clarify what PAS 1 means when it refers to the 'settlement' of a liability. Terms of a liability that could, at the option of the counterparty, result in its settlement by the transfer of the entity's own equity instrument can only be ignored for the purpose of classifying the liability as current or non-current if the entity classifies the option as an equity instrument. However, conversion options that are classified as a liability must be considered when determining the current/non-current classification of a convertible note.

The amendments has been applied retrospectively in accordance with the normal requirements in PAS 8 'Accounting Policies, Changes in Accounting Estimates and Errors'.

There are no other new standards, interpretations and amendments to existing standards effective January 1, 2025 that are considered to be relevant or have a material impact on the Club's financial statements.

(b) New standard not yet effective and not early adopted by the Club

- PFRS 18 Presentation and Disclosure in Financial Statements (*Effective beginning on or after January 1, 2027*)

PFRS 18 will replace PAS 1 Presentation of financial statements, introducing new requirements that will help to achieve comparability of the financial performance of similar entities and provide more relevant information and transparency to users. Even though PFRS 18 will not impact the recognition or measurement of items in the financial statements, its impacts on presentation and disclosure are expected to be pervasive, in particular those related to the statement of financial performance and providing management-defined performance measures within the financial statements.

Management is currently assessing the detailed implications of applying the new standard on the Club's financial statements. From the high-level preliminary assessment performed, the following potential impacts have been identified:

- Although the adoption of PFRS 18 will have no impact on the Club's net profit, the Club expects that grouping items of income and expenses in the statement of profit or loss into the new categories will impact how operating profit is calculated and reported. From the high-level impact assessment that the Club has performed, the following items might potentially impact operating profit:
- Foreign exchange differences currently aggregated in the line item 'other income and other gains/(losses) - net' in operating profit might need to be disaggregated, with some foreign exchange gains or losses presented below operating profit.

The line items presented on the primary financial statements might change as a result of the application of the concept of 'useful structured summary' and the enhanced principles on aggregation and disaggregation. In addition, since goodwill will be required to be separately presented in the statement of financial position, the Club will disaggregate goodwill and other intangible assets and present them separately in the statement of financial position.

The Club does not expect there to be a significant change in the information that is currently disclosed in the notes because the requirement to disclose material information remains unchanged; however, the way in which the information is grouped might change as a result of the aggregation/disaggregation principles. In addition, there will be significant new disclosures required for:

- management-defined performance measures;
- a break-down of the nature of expenses for line items presented by function in the operating category of the statement of profit or loss - this break-down is only required for certain nature expenses; and
- for the first annual period of application of PFRS 18, a reconciliation for each line item in the statement of profit or loss between the restated amounts presented by applying PFRS 18 and the amounts previously presented applying PAS 1.

From a cash flow statement perspective, there will be changes to how interest received and interest paid are presented. Interest paid will be presented as financing cash flows and interest received as investing cash flows, which is a change from current presentation as part of operating cash flows.

The Club will apply the new standard from its mandatory effective date of January 1, 2027.

Retrospective application is required, and so the comparative information for the financial year ending December 31, 2026 will be restated in accordance with PFRS 18.

There are no other new standards, interpretations and amendments to existing standards not yet effective as at September 30, 2025 reporting period that are considered to be relevant or have a material impact on the Club's financial statements.

13.2 Current and non-current classification

The Club presents assets and liabilities in the statement of financial position based on current and non-current classification.

An asset is current when it is:

- a. expected to be realized or intended to be sold or consumed in normal operating cycle;
- b. held primarily for the purpose of trading;
- c. expected to be realized within twelve (12) months after reporting date; or
- d. cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least 12 months after reporting date.

All other assets are classified as non-current. A liability is current when:

- a. it is expected to be settled in the normal operating cycle;
- b. it is held primarily for the purpose of trading;
- c. it is due to be settled within 12 months after reporting date; or
- d. there is no unconditional right to defer the settlement of the liability for at least 12 months after reporting date.

The Club classifies all other liabilities as non-current.

13.3 Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible to the Club.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Club uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value

measurement is unobservable

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Club determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Club has determined classes of assets on the basis of the nature, characteristics and risks of the asset and the level of the fair value hierarchy as explained above.

13.4 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

13.4.1 Financial assets

(a) Initial recognition and measurement

Financial assets are classified, at initial recognition, and subsequently measured at amortized cost, fair value through other comprehensive income (OCI), and fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Club's business model for managing them. The Club initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. Financial assets that do not contain a significant financing component or for which the Club has applied the practical expedient are measured at the transaction price determined under PFRS 15.

In order for a financial asset to be classified and measured at amortized cost or fair value through OCI, it needs to give rise to cash flows that are 'solely payments of principal and interest (SPPI)' on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level. Financial assets with cash flows that are not SPPI are classified and measured at FVPL, irrespective of the business model.

The Club's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both. Financial assets classified and measured at amortized cost are held within a business model with the objective to hold financial assets in order to collect contractual cash flows while financial assets classified and measured at FVOCI are held within a business model with the objective of both holding to collect contractual cash flows and selling.

The classification requirements for financial assets are described below:

- Financial assets at amortized cost (debt instruments)
- Financial assets at fair value through OCI with recycling of cumulative gains and losses (debt instruments)
- Financial assets designated at fair value through OCI with no recycling of cumulative gains and losses upon derecognition (equity instruments)
- Financial assets at fair value through profit or loss

As at September 30, 2025 and December 31, 2024, the Club's financial assets pertain to financial assets at amortized cost (debt instruments).

*(b) Subsequent measurement**Financial assets at amortized cost (debt instruments)*

Financial assets at amortized cost are subsequently measured using the effective interest (EIR) method and are subject to impairment. Gains and losses are recognized in profit or loss when the asset is derecognized, modified or impaired.

The Club's financial assets at amortized cost includes cash in banks, accounts and other receivables, and deposits.

(c) Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognized (i.e., removed from the statement of financial position) when:

- The rights to receive cash flows from the asset have expired, or,
- The Club has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Club has transferred substantially all the risks and rewards of the asset, or (b) the Club has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Club has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Club continues to recognize the transferred asset to the extent of its continuing involvement. In that case, the Club also recognized an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Club has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Club could be required to repay.

(d) Impairment of financial assets

The Club recognizes an allowance for expected credit losses (ECLs) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Club expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

For cash in banks, the Club applies the low credit risk simplification.

For accounts and other receivables, the Club applies a simplified approach in calculating ECLs. Therefore, the Club does not track changes in credit risk, but instead recognizes a loss allowance based on lifetime ECLs at each reporting date. The Club has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

The Club considers a receivable in default when contractual payments are 120 days past due. However, in certain cases, the Club may also consider a receivable to be in default when internal or external information indicates that the Club is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Club. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

The Club implements a policy on its receivables, wherein members in the delinquent list or those with accounts that are past due for more than 120 days are reported to the BOD. The respective shares of the members or of the juridical entities they represent shall be ordered sold by the BOD, through an auction, to satisfy the claims of the Club.

13.4.2 Financial liabilities

(a) Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Club's financial liabilities include accounts and other payables, except payables to the government, contract liabilities and payables to related parties and other obligations that meet the above definition (other than liabilities covered by other accounting standards, such as income tax payable).

(b) Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in two categories:

- Financial liabilities at FVPL
- Financial liabilities at amortized cost (interest-bearing loans and borrowings)

After initial recognition, non-interest-bearing loans and borrowings are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the EIR amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of comprehensive loss.

(c) Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized through profit or loss in the statement of comprehensive loss.

13.4.3 Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position if there is a currently enforceable legal right to set off the recognized amounts and there is an intention to settle on a net basis, to realize the asset and settle the liability simultaneously. The Club assesses that it has a currently enforceable right of offset if the right is not contingent on a future event and is legally enforceable in the normal course of business, event of default, and event of insolvency or bankruptcy of the Club and all of the counterparties.

13.5 Property and equipment

Property and equipment, except land, are stated at cost net of accumulated depreciation, amortization and accumulated impairment losses, if any. Land held for use in operations is carried at cost less any impairment losses. The initial cost of land comprises its purchase price and any directly attributable costs of bringing the land to the condition necessary for its intended use. Subsequently, land is not subject to depreciation.

The initial cost of property and equipment consists of its purchase price including import duties and any directly attributable costs of bringing the property and equipment to its working condition and location for its intended use. Cost also includes the cost of replacing part of such property and equipment when the recognition criteria are met.

Expenditures incurred after the property and equipment have been put into operations, such as repairs and maintenance are recognized in profit or loss in the year the costs are incurred. In situations where it can be clearly demonstrated that the expenditures have resulted in an increase in future economic benefits expected to be obtained from the use of an item of property and equipment beyond its originally assessed standard of performance, the expenditures are capitalized as additional costs of property and equipment.

Depreciations are computed on a straight-line basis over the estimated useful lives of the property and equipment. The estimated useful lives of the property and equipment are as follows:

Asset type	Number of years
Building	40
Facilities, furniture, fixtures and equipment	3 to 5
Transportation equipment	3 to 5

The Club determines depreciation for each significant part of an item of property and equipment.

The estimated useful lives and method of depreciation are reviewed and adjusted, if appropriate, at each financial year end to ensure that the years and method of depreciation and amortization are consistent with the expected pattern of economic benefits from items of property and equipment.

An item of property and equipment is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the year the asset is derecognized.

Fully depreciated property and equipment are retained in the books until these are no longer in use.

13.6 Impairment of non-financial assets

Advances to contractors, input VAT and other non-current assets

Assets such as advances to contractors, input VAT and other non-current assets, are assessed at each reporting date to determine whether there is any indication that these assets are impaired. If these assets are impaired, an allowance for impairment is set-up. The amounts and timing of recorded expenses for any period would differ if the Club made different judgments or utilized different estimates. An increase in allowance for impairment losses would increase recorded expenses and decrease advances to contractors, input VAT and other non-current assets.

Recovery of impairment losses recognized in prior year is recorded when there is an indication that the impairment losses recognized for the asset no longer exist or has decreased. The recovery is recorded through profit or loss in the statement of comprehensive loss. However, the increase in carrying amount of an

asset due to recovery of an impairment loss is recognized to the extent it does not exceed the carrying amount that would have been determined had there been no impairment loss recognized for that asset in prior year.

Property and equipment

The Club assesses at each reporting date whether there is an indication that property and equipment may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Club estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash generating unit's (CGU) fair value less costs of disposal and its value-in-use. It is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value-in-use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Impairment losses of continuing operations are recognized through profit or loss in those expense categories consistent with the function of the impaired asset.

An assessment is made at each reporting date to determine whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the recoverable amount is estimated. A previously recognized impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized through profit or loss in the statement of comprehensive loss unless the asset is carried at revalued amount, in which case, the reversal is treated as a revaluation increase.

13.7 Equity

Capital stock

Capital stock is measured at par value for all shares issued and outstanding. When the Club issues more than one class of stock, a separate account is maintained for each class of stock and the number of shares issued.

Deficit

Deficit represents accumulated losses of the Club. A deficit is not an asset but a deduction from equity.

13.8 Revenue from contracts with customers

The Club's revenue from contracts with customers primarily consist of membership dues, service income and sale of goods. Revenue from contracts with customers is recognized when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Club expects to be entitled in exchange for those goods or services. The Club has generally concluded that it is the principal in its revenue arrangements.

The following are the Club's performance obligations:

(i) Membership dues

Revenue from membership dues is recognized over the time the members are provided access to the Club's villa accommodation, sports complex, game rooms, restaurants and other amenities.

Transaction price is determined to be the BOD-approved rate for monthly membership dues. Each monthly membership dues are considered as a single performance obligation, therefore it is not necessary to allocate the transaction price. Any advance payments are recorded under "Contract liabilities" under accounts and other payables account in the statement of financial position.

(ii) Service income

Service income includes revenue from providing villa accommodation, guest fees and income from the use of the Club's facilities and amenities such as sports complex, game rooms and other Club amenities. Revenue is recognized over the time the services are rendered and/or facilities and amenities are used.

(iii) Sale of goods

Revenue from sale of food and beverages and merchandise are recognized when control of the goods is transferred to the customers, generally when goods are delivered to and accepted by the customers.

(iv) Other income

Other income is recognized at a point in time when it is earned and realizable or when the Club's right to receive the payment is established.

13.9 Contract balances

Trade receivables

A receivable is recognized when the Club has the unconditional right to collect an amount of consideration due from the customer (i.e., only the passage of time is required before payment of the consideration is due).

Contract liabilities

A contract liability is recognized if a payment is received or payment is due (whichever is earlier) from a customer before the Club transfers the related goods or services. Contract liabilities are recognized as revenue when the Club performs under the contract. Membership dues and consumables collected in advance are recognized as contract liabilities in the statement of financial position.

13.10 Taxes

Current income tax

Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the tax authority. The tax rates and tax laws used to compute the amount are those enacted or substantively enacted as at the end of the reporting period.

Current income tax for current and prior periods shall, to the extent unpaid, be recognized as a liability and is presented as income tax payable in the statement of financial position. If the amount already paid in respect of current and prior periods exceeds the amount due for those periods, the excess shall be recognized as an asset and is presented as part of other current assets in the statement of financial position.

Deferred tax

Deferred income tax is provided, using the liability method, on all temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable income will be available to allow all or part of the deferred tax assets to be utilized. Any unrecognized deferred tax assets are reassessed at each reporting date and are

recognized to the extent that it has become probable that future taxable income will allow all or part of the deferred tax assets to be recovered.

Deferred tax assets and liabilities are measured at the tax rate that is expected to apply to the period when the asset is realized, or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at the reporting date.

13.11 Provisions

Provisions are recognized when the Club has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Club expects some or all of a provision to be reimbursed, the reimbursement is recognized as a separate asset but only when the reimbursement is virtually certain. Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate.

13.12 Employee benefits

The Club's long term employee benefit is measured using the accrual method based on the minimum retirement benefits required under RA No. 7641, otherwise known as The Philippine Retirement Pay Law. The accrual method is applied by calculating the expected liability as at reporting date using the current salary of the entitled employees and the employees' years of service, without consideration of future changes in salary rates and service period.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Review of 3Q 2025 vs 3Q 2024

The Club incurred a net loss after tax of P12,996,452 in the third quarter of 2025 from P12,506,049 net losses during the third quarter of 2024.

Business segment

The Club will serve its members through its amenities. Food and banquet, memberships and other amenities related to leisure are being offered. The Club commenced its commercial operations on March 28, 2019.

Cost and Expenses

Total cost and expenses amounted to P25,012,497 during the third quarter of 2025, 2% higher than the P24,423,477 posted in the same period last year.

Project and Capital Expenditure

The Club spent a total of P868,739,879 for project and capital expenditures of the Club since inception. All of the capital expenditures were spent on construction and fit-out, land and transportation equipment of the Country Club.

Financial Condition

Cash stood at ₱3,013,320, resulting in a Current Ratio of 0.08:1. The Club's funds were sourced from revenue generating activities and advances from NCI to support the Club's operating requirements. As of September 30, 2025, advances provided by the Parent Company amounted to ₱ 205,519,893.

Liquidity Risk

The Club manages liquidity risk by maintaining a balance between continuity of funding and flexibility. Treasury controls and procedures are in place to ensure that sufficient cash is maintained to cover working capital requirements. The Club maintains a level of cash deemed sufficient to finance its operations. As part of its liquidity risk management, the Club regularly evaluates its projected and actual cash flows.

Credit Risk

The Club's holding of cash exposes the Club to credit risk of the counterparty if the counterparty is unwilling or unable to fulfill its obligations, and the Club subsequently suffers financial loss. Credit risk management involves dealing only with counterparties for which credit limits have been established.

The Club's maximum exposure to credit risk as of September 30, 2025 is equal to the carrying value of its cash in bank. This financial asset is graded as high.

Causes of any material changes (+/- 5% or more) in the financial statements

Income Statement items – September 30, 2025 versus September 30, 2024

31% increase in Sale of Goods

Sale of goods is comprised of Outlet and Banquet sales. Outlet sales increased by 3% driven by program initiatives and effective upselling of the team in introducing the club's pastries, dessert and beverage. Banquet sales higher by 54% due to continuous effort to focus on big ticket events.

31% increase in Service income

Service income includes revenue from sports and recreation, guest fees, spa and villa rentals. Improvement is mainly driven by higher villa and pool reservations from wedding & corporate bookings

18% increase in Other income

Club's other income pertains to income from expired consumables, surcharge and interest from delinquent members and service charge.

4% increase in Total Expenses

Increase in cost mainly attributed to impact of mandated wage adjustments beginning the last quarter of 2024. Utilities also contributed to the increase in cost coming from higher rates for water and higher energy consumption in the third quarter of 2025.

Balance Sheet items – September 30, 2025 versus December 31, 2024

62% decrease in Cash

Lower cash as at September 2025 compared to the same period last year given the additional capital expenditures spent for speakers, garden eco grass, and club repairs for roof repainting, tennis court floor repainting and main pool repairs.

3% decrease in Inventories

Lower inventory due to movements of stocks and reduction in purchases.

65% decrease in Other current assets

The decrease is due to monthly amortization of prepaid real property taxes for land, machineries and building improvements.
